I. Main economic indicators

Monetary developments

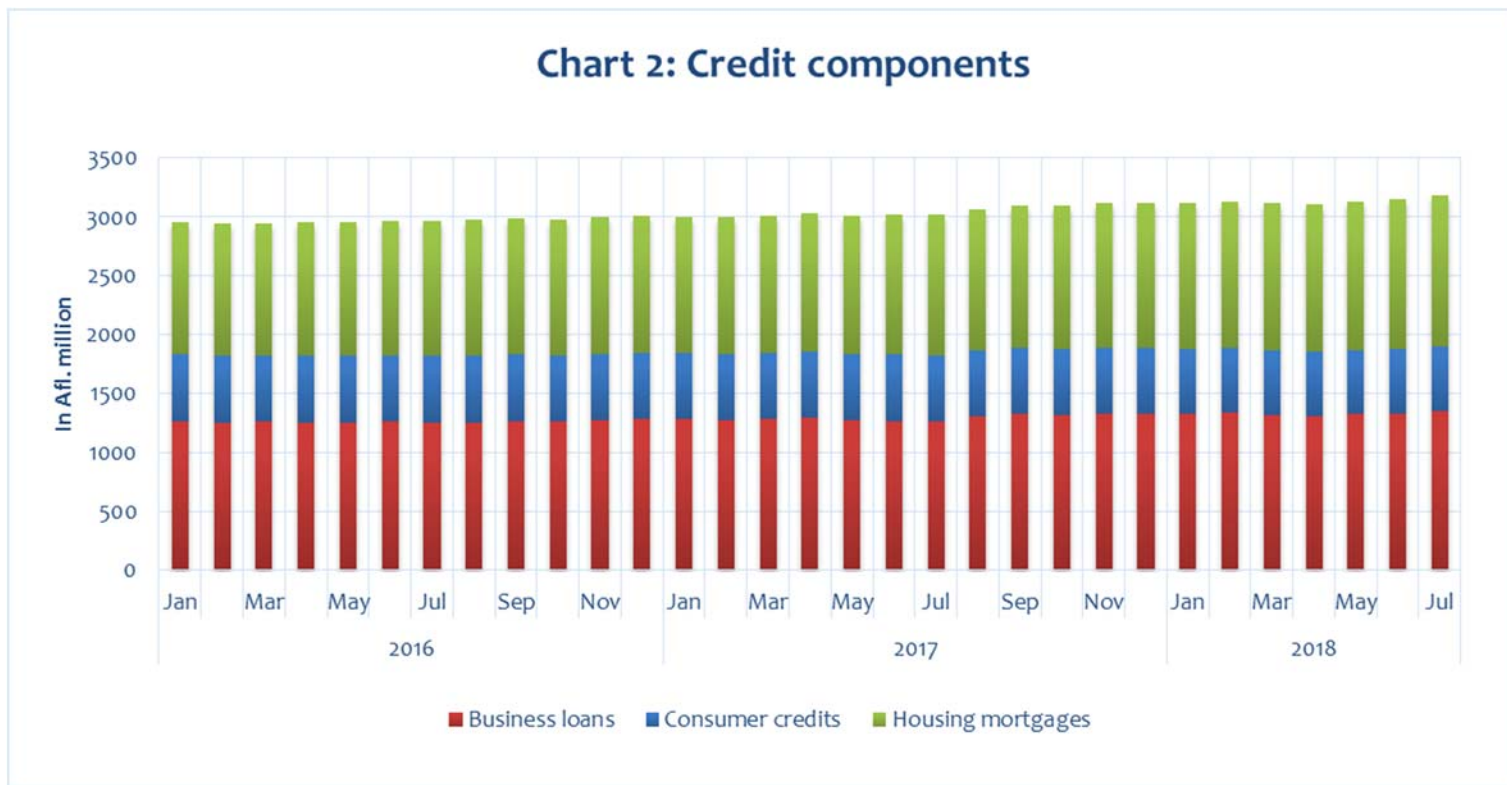

In July 2018, money supply grew by Afl. 90.3 million to Afl. 4,421.0 million, compared to June 2018, resulting from expansions in both net domestic assets and net foreign assets¹ of Afl. 57.5 million and Afl. 32.8 million, respectively (chart 1).

Source: Centrale Bank van Aruba

¹ Excluding revaluation differences of gold and foreign exchange holdings.

Money, as a component of broad money, surged by Afl. 97.8 million to Afl. 2,595.1 million, as demand deposits rose by Afl. 105.5 million, while currency in circulation decreased by Afl. 7.7 million. The increase in demand deposits resulted from an upturn in deposits denominated in Aruban florin and in foreign currency of Afl. 76.8 million and Afl. 28.8 million, respectively. Quasi-money registered a decline of Afl. 7.5 million to Afl. 1,825.9 million, resulting from a contraction in savings deposits denominated in Aruban florin of Afl. 22.3 million and a growth in time deposits denominated in Aruban florin of Afl. 16.0 million.

Source: Centrale Bank van Aruba

The growth in the domestic component of the money supply was mainly caused by an increase in domestic credit of Afl. 57.1 million. The expansion in domestic credit resulted from upturns in claims of the banking sector on the private sector (+Afl. 34.8 million) and net claims of the banking sector on the public sector (+Afl. 22.3 million). The rise in the claims of the banking sector on the private sector was attributed to an increase in loans to enterprises (+Afl. 23.3 million) and housing mortgages (+Afl. 13.5 million), while consumer credit registered a reduction of Afl. 1.9 million (Chart 2). The net claims of the banking sector on the public sector resulted primarily from a decrease in government deposits (-Afl. 22.0 million).

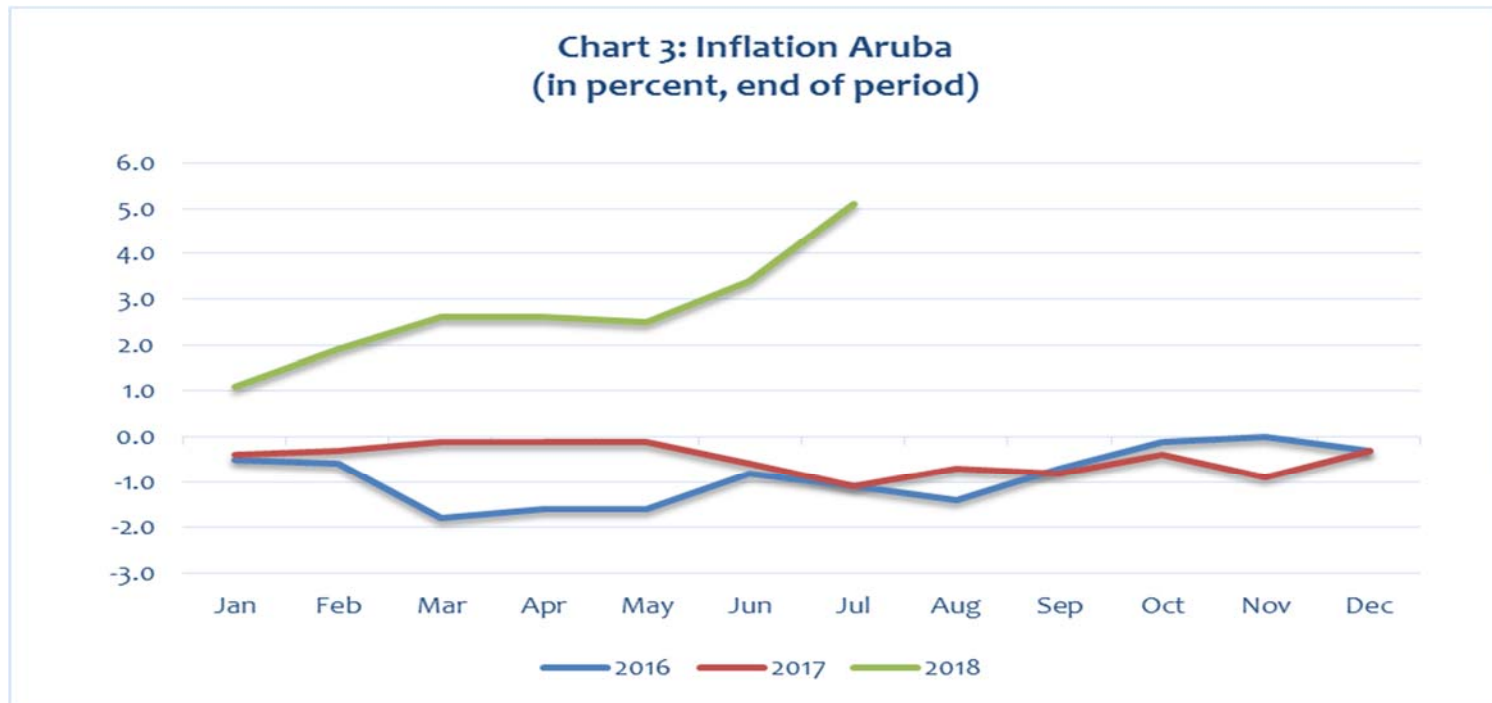

The increase in the net foreign assets of the banking sector was due to net purchases of foreign exchange of Afl. 214.2 million from the public mainly associated with foreign exchange revenue from tourism activities. These were largely offset by net sales of foreign exchange of Afl. 181.4 million to the public, mostly related to payments for goods (Table 1).

Table 1. Change in Net Foreign Assets (NFA) July 2018	
(in Afl. million)	
Net purchases of foreign exchange	214.2
Tourism services	172.6
Net transfers from foreign accounts	27.1

Inflation

The consumer price index (CPI) for July 2018 noted a 5.1 percent increase year-over-year (YOY) (Chart 3).

Source: Central Bureau of Statistics

The main contributors to this rise were the components “Transport”, “Food and Non-Alcoholic Beverages”, and “Recreation and Culture”. All other components also noted increases. Excluding the effect of food and energy², the core CPI rose by 2.5 percent (YOY) (Table 2).

Inflation components	End-month inflation		12-month average inflation	
	Jul-17	Jul-18	Jul-17	Jul-18
Food And Non-Alcoholic Beverages	0.1	1.4	0.1	0.5
Beverages And Tobacco Products	0.0	0.1	0.0	0.0

² Partly affects the housing and transport components.

The 12-month average inflation rate was 1.3 percent in July 2018, compared to 0.8 percent in June 2018 (Chart 4).

Source: Central Bureau of Statistics

Tourism

The number of stay over visitors amounted to 101,386 in July 2018, which is 886 less visitors (-0.9 percent) than in July 2017.

This decline was mainly due to a contraction in the Latin American market and European market of 4,380 visitors (-20.8 percent), and 515 (-5.9 percent), respectively. In contrast, the North American market grew by 3,079 visitors (+4.4 percent) (Chart 5).

The downturn in the Latin American market resulted from a decrease in arrivals from Venezuela (-5,254 visitors or -53.1 percent), while the reduction in the European market was caused by a drop in arrivals from the United Kingdom (-1,262 visitors or -46.4 percent). The rise in the North American market, on the other hand, was mainly because of an expansion in arrivals from the United States (+3,059 visitors or +4.6 percent).

Source: Aruba Tourism Authority

In the month under review, total number of nights spent in Aruba, as indicated by the visitors, decreased by 1.9 percent to 758,095 compared to the same month of the previous year. The average intended night stays edged down to 7.5 nights in July 2018 compared to July 2017.

The number of cruise visitors rose by 14,482 passengers or 45.4 percent to 46,370 in July 2018, compared to July 2017. The number of ship calls grew from 14 in July 2017 to 16 in July 2018.

Government

Total government revenue amounted to Afl. 83.2 million in July 2018, Afl. 0.6 million more than the same month of the previous year.

This outcome resulted from a growth of Afl. 6.7 million in tax revenue and a lower amount registered in non-tax revenue (-Afl. 6.1 million¹).

The increase in tax revenue was mainly related to expansions in income from wage tax (+Afl. 2.4 million), profit tax (+Afl.1.8 million), income tax (+Afl. 1.6 million), excises on tobacco (+Afl. 1.2 million), import duties (+Afl. 1.2 million), and transfer tax (+Afl. 1.0 million). These increases were partly offset by a decrease in income from foreign exchange tax (-Afl. 2.2 million).

¹ At the time of publication, non-tax revenue data for July 2018 from the Department of Finance was not yet available.

* The monetary survey consolidates the accounts of the Centrale Bank van Aruba, the commercial banks and the Government related only to the issuance of components of the money supply, i.e., coins and treasury bills. This survey shows the financial relationship between the monetary sector, whose liabilities include the money supply, and other sectors of the economy.

** Gross claims include loans granted as well as government bonds in the hands of the monetary sectors and claims resulting from the issuance of treasury bills, cash certificates, and coins.

*** Revaluation differences of gold and official foreign exchange holdings are excluded in order to approximate the net import of foreign funds by the nonmonetary sectors.

1) The Diversification Index measures the concentration within the tourist market, and thus demonstrates the degree of diversification by tourist origin countries. The higher the index, the higher the level of concentration, meaning less diversification. For further reference on the methodology (which is an application of a Herfindahl-Hirschman index) see the Quarterly Bulletin (2011-I) of the CBA.
