- 12. Consumer price index 21

I. Main economic indicators

Monetary developments

In July 2021, money supply rose by Afl. 102.6 million to Afl. 5,158.9 million, compared to June 2021, resulting from an increase in the net foreign¹ assets (+Afl. 235.6 million) and a decrease in the net domestic assets (-Afl. 133.0 million) (Chart 1).

Source: Centrale Bank van Aruba

¹ Excluding revaluation differences of gold and foreign exchange holdings.

Money, as a component of broad money, expanded by Afl. 113.9 million to Afl. 3,119.4 million, resulting from an increase in demand deposits (+Afl. 114.8 million) and a decrease in money in circulation (-Afl. 0.8 million). The rise in demand deposits was due to a rise in both the deposits denominated in Aruban florin (+Afl. 101.1 million) and the deposits denominated in foreign currency (+Afl. 13.6 million). Quasi-money declined by Afl. 11.3 million to Afl. 2,039.5 million, as a result of decreases in savings denominated in Aruban florin (-Afl. 18.2 million) and time deposits denominated in foreign currency (-Afl. 4.6 million), and an increase in time deposits denominated in Aruban florin (+Afl. 11.6 million).

In July 2021, net foreign assets of the banking sector rose, due to net purchases of foreign exchange of Afl. 452.1 million from the public, mostly related to foreign exchange revenue from tourism exports, other investment, and net transfers from foreign accounts. These were largely offset by net sales of foreign exchange of Afl. 216.5 million to the public, mainly associated with payments for goods imports and other services (Table 1).

Table 1. Change in Net Foreign Assets (NFA) July 2021 (in Afl. million)	
Net purchases of foreign exchange	452.1
Tourism services	207.2
Other investment	171.3
Net transfers from foreign accounts	50.4
Direct investment	9.2
Transportation services	8.3
Financial derivatives	5.5
Capital account transactions	0.1
Net sales of foreign exchange	-216.5

Other services	-31.5
Secondary Income	-12.4
Items not yet classified	-10.1
Primary income	-8.6
Portfolio investment	-2.4
Government services	-1.8
NET CHANGE IN NFA (minus (-) denotes a decrease)	235.6

Source: Centrale Bank van Aruba

The decline in the domestic component of money supply was caused by reductions in both the domestic credit (-Afl. 121.0 million) and the non-credit related balance sheet items (-Afl. 12.0 million). The decline in domestic credit resulted from decreases in the net claims of the banking sector on the public sector (-Afl. 117.5 million) and the claims of the banking sector on the private sector (-Afl. 3.6 million). The drop in the net claims of the banking sector on the public sector was the result of a surge in government deposits (+Afl. 117.7 million). The dip in the claims of the banking sector on the private sector (Chart 2) was caused by a decline in loans to enterprises (-Afl. 4.6 million), while housing mortgages increased (+Afl. 1.0 million) and consumer credit remained unchanged.

Inflation

The consumer price index (CPI) for July 2021 noted a 1.8 percent rise year-over-year (YOY) compared to a 1.0 percent increase (YOY) for June 2021 (Chart 3).

Source: Centrale Bureau of Statistics

The main contributor to this increase was the “Transport” component. In addition, the “Housing” component also noted an increase. The components “Recreation and Culture”, “Household Operations”, “Health”, and “Communication” noted decreases, while all other components remained unchanged. Furthermore, by excluding the effect of food and energy², the core CPI increased by 0.5 percent (YOY) (Table 2).

Table 2: COMPONENTS OF INFLATION

Government

Total government revenue amounted to Afl. 86.5 million in July 2021, Afl. 15.0 million less than the same month of the previous year.

The decline in government revenue resulted from a decrease in nontax revenue (-Afl. 15.0 million) and an increase in tax revenue (+Afl. 3.2 million).

Nontax revenue declined due to lower other nontax revenue. The expansion in tax revenue was mainly driven by increases in income from turnover tax (B.B.O./B.A.V.P) (+Afl. 6.4 million), import duties (+Afl. 3.7 million), excises on liquor (+Afl. 2.6 million), and transfer tax (+2.4 million). In contrast, income from wage tax and land tax decreased by Afl. 12.0 million and Afl. 3.1 million, respectively.

Tourism

For July 2021, the figures for stay-over visitors were compared with stay-over visitors welcomed during July 2019. The number of stay-over visitors amounted to 100,178 in July 2021, which is 3,286 less visitors (-3.2 percent) than in July 2019.

The Latin American market and the European market declined by of 6,485 visitors (-64.1 percent) and 1,644 visitors (-19.7 percent), respectively. In contrast, the North American market rose by 4,724 visitors (+5.7 percent).

The decreases in the arrivals from the Latin American and the European markets were primarily due to less arrivals from Argentina and the United Kingdom, respectively. The growth in the North American market resulted from more arrivals from the United States (+7,063 visitors or +8.9 percent).

In the month under review, total number of nights spent in Aruba, as indicated by the visitors, declined by 4.8 percent to 731,480 as compared to the corresponding month for the year 2019. The average intended night stays experienced a decrease from 7.4 nights in July 2019 to 7.3 nights in July 2021.

The number of cruise visitors dropped by 40,022 passengers or 85.2 percent to 6,930 in July 2021, compared to 46,952 in July 2019. The number of ship calls decreased from 15 in July 2019 to 4 in July 2021.

* The monetary survey consolidates the accounts of the Centrale Bank van Aruba, the commercial banks and the Government related only to the issuance of components of the money supply, i.e., coins and treasury bills. This survey shows the financial relationship between the monetary sector, whose liabilities include the money supply, and other sectors of the economy.

** Gross claims include loans granted as well as government bonds in the hands of the monetary sectors and claims resulting from the issuance of treasury bills, cash certificates, and coins.

*** Revaluation differences of gold and official foreign exchange holdings are excluded in order to approximate the net import of foreign funds by the nonmonetary sectors.

1) The Diversification Index measures the concentration within the tourist market, and thus demonstrates the degree of diversification by tourist origin countries. The higher the index, the higher the level of concentration, meaning less diversification. For further reference on the methodology (which is an application of a Herfindahl-Hirschman index) see the Quarterly Bulletin (2011-I) of the CBA.
