I. Main economic indicators

Monetary developments

In November 2021, money supply increased by Afl. 31.3 million to Afl. 5,253.5 million, compared to October 2021, resulting from a rise in net foreign¹ assets (+Afl. 188.2 million) and a decrease in net domestic assets (-Afl. 156.9 million) (Chart 1).

Source: Centrale Bank van Aruba

Money, as a component of broad money, shrank by Afl. 29.2 million to Afl. 3,156.3 million, resulting from a drop in demand deposits (-Afl. 35.5 million) and a growth in money in circulation (+Afl. 6.4 million). The decrease in demand deposits was

¹ Excluding revaluation differences of gold and foreign exchange holdings.

due to a dip in deposits denominated in Aruban florin (-Afl. 83.1 million) and an increase in deposits denominated in foreign currency (+Afl. 47.6 million). Quasi-money expanded by Afl. 60.5 million to Afl. 2,097.3 million, mainly as a result of an increase in time deposits denominated in Aruban florin (+Afl. 64.9 million). In contrast, savings denominated in Aruban florin declined (-Afl. 5.3 million).

Source: Centrale Bank van Aruba

In November 2021, the surge in net foreign assets of the banking sector was due to net purchases of foreign exchange of Afl. 444.0 million from the public, mostly related to foreign exchange revenue from tourism exports and portfolio investment. These were largely offset by net sales of foreign exchange of Afl. 255.8 million to the public, mainly associated with payments for goods imports and other services. (Table 1).

Table 1. Change in Net Foreign Assets (NFA) Nove	mber 2021
(in Afl. million)	
Net purchases of foreign exchange	444.0
Tourism services	231.7
Portfolio investment	142.1

Secondary Income	-3.9
Items not yet classified	-18.8
NET CHANGE IN NFA (minus (-) denotes a decrease)	188.2

Source: Centrale Bank van Aruba

The drop in the domestic component of money supply was caused by a decline in the domestic credit (-Afl. 163.9 million) and an increase in the non-credit related balance sheet items (+Afl. 7.0 million). The decrease in domestic credit resulted from a reduction in the net claims of the banking sector on the public sector (-Afl. 174.3 million) and an expansion in the claims of the banking sector on the private sector (+Afl. 10.4 million). The decline in the net claims of the banking sector on the public sector was the result of a surge in government deposits (+Afl. 107.5 million) and a drop in gross claims (-Afl. 66.8 million). The increase in the claims of the banking sector on the private sector (Chart 2) was caused mainly by a growth in loans to enterprises (+Afl. 14.5 million). In contrast, consumer credit decreased by Afl. 5.2 million.

Inflation

The consumer price index (CPI) for November 2021 noted a 3.1 percent rise year-over-year (YOY) compared to a 2.4 percent increase (YOY) for October 2021 (Chart 3).

Source: Centrale Bureau of Statistics

The main contributor to this increase was the "Transport" component. In addition, the "Housing", "Food and Non-alcoholic Beverages", "Recreation and Culture", "Restaurants and Hotels", and "Miscellaneous Goods and Services" components also noted increases. The components "Clothing and Footwear", "Household Operation", and "Health" noted a decrease, while the other components remained unchanged. Furthermore, by excluding the effect of food and energy², the core CPI increased by 1.1 percent (YOY) (Table 2).

² Partly affects the housing and transport components.

The 12-month average inflation rate was 0.2 percent in November 2021, compared to -0.3 percent in October 2021 (Chart 4).

Source: Centrale Bureau of Statistics

Government

Total government revenue amounted to Afl. 102.1 million in November 2021, Afl. 15.0 million less than the same month of the previous year.

The decline in government revenue resulted from a decrease in tax revenue (-Afl. 15.1 million) and a marginal increase in nontax revenue (+Afl. 0.2 million).

The decline in tax revenue was mainly driven by a drop in income from profit tax (-Afl. 31.0 million). In contrast, income from turnover tax (B.B.O./B.A.V.P) (+Afl. 4.2 million), import duties (+Afl. 3.8 million), and wage tax (+Afl. 3.5 million) increased.

Tourism

For November 2021, the figures for stay-over visitors were compared with stay-over visitors welcomed during November 2019. The number of stay-over visitors amounted to 79,870 in November 2021, which is 10,131 less visitors (-11.3 percent) than in November 2019.

The North American market, the Latin American market, and the European market declined by 5,757 visitors (-8.0 percent), 2,506 visitors (-34.3 percent), and 1,346 visitors (-16.8 percent), respectively.

The drop in the North American market resulted from less arrivals from both the United States (-4,167 visitors or -6.2 percent) and Canada (-1,590 visitors or -32.0 percent). The decrease in the arrivals from the Latin American market was primarily due to less arrivals from Venezuela and Argentina, while the decline in the European market was mainly due to less arrivals from Germany.

In the month under review, total number of nights spent in Aruba, as indicated by the visitors, declined by 9.9 percent to 593,992 as compared to the corresponding month for the year 2019. The average intended night stays experienced an increase from 7.3 nights in November 2019 to 7.4 nights in November 2021.

The number of cruise visitors dropped by 52,299 passengers or 54.0 percent to 44,467 in November 2021, compared to 96,766 in November 2019. The number of ship calls decreased from 42 in November 2019 to 30 in November 2021.

^{*} The monetary survey consolidates the accounts of the Centrale Bank van Aruba, the commercial banks and the Government related only to the issuance of components of the money supply, i.e., coins and treasury bills. This survey shows the financial relationship between the monetary sector, whose liabilities include the money supply, and other sectors of the economy.

^{**} Gross claims include loans granted as well as government bonds in the hands of the monetary sectors and claims resulting from the issuance of treasury bills, cash certificates, and coins.

^{***} Revaluation differences of gold and official foreign exchange holdings are excluded in order to approximate the net import of foreign funds by the nonmonetary sectors.

¹⁾ The Diversification Index measures the concentration within the tourist market, and thus demonstrates the degree of diversification by tourist origin countries. The higher the index, the higher the level of concentration, meaning less diversification. For further reference on the methodology (which is an application of a Herfindahl-Hirschman index) see the Quarterly Bulletin (2011-I) of the CBA.
