- 8. Government Revenue 17
- 9. Government's position with the monetary system 18
- 10. Tourism 19
- 11. Growth in stay-over tourism 20
- 12. Consumer price index 21

## I. Main economic indicators

### Monetary developments

In January 2022, money supply decreased by Afl. 48.4 million to Afl. 5,319.7 million, compared to December 2021, resulting from reductions in both net domestic assets (-Afl. 24.9 million) and net foreign<sup>1</sup> assets (-Afl. 23.5 million) (Chart 1).

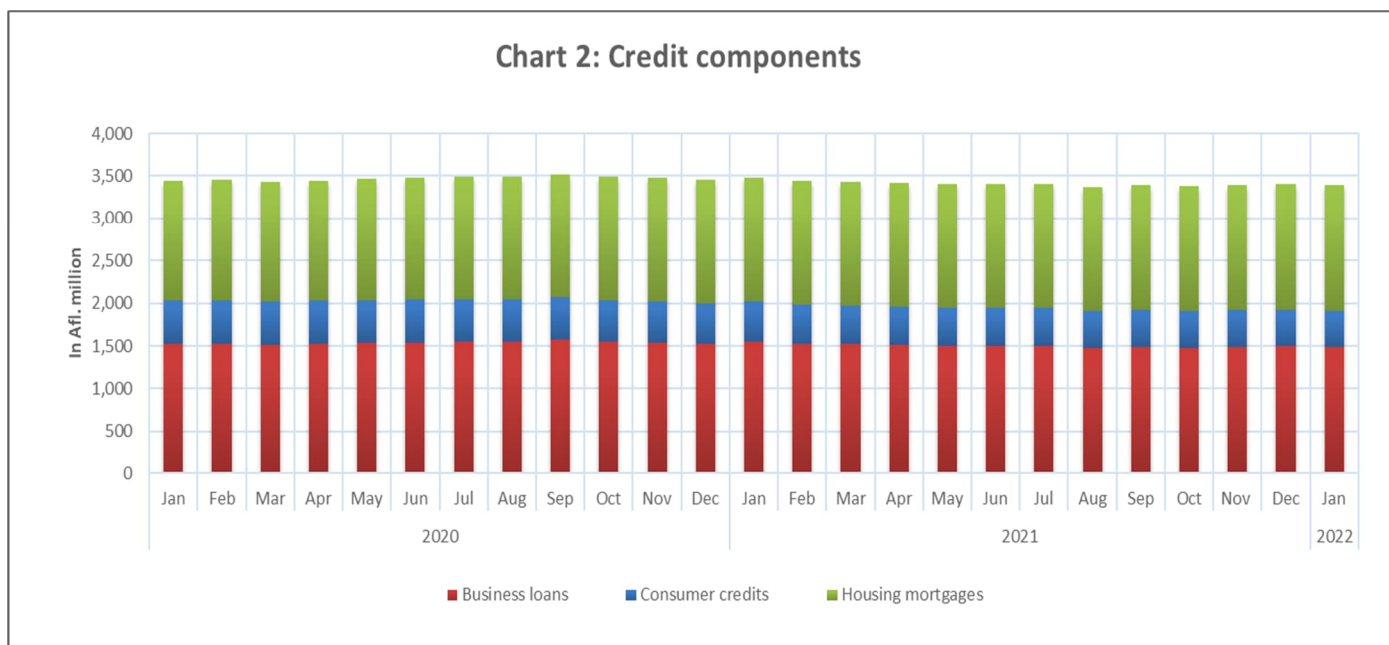

Source: Centrale Bank van Aruba

Money, as a component of broad money, declined by Afl. 2.8 million to Afl. 3,184.6 million, resulting from a decrease in demand deposits (-Afl. 3.7 million) and an increase in money in circulation (+Afl. 0.9 million). The contraction in demand deposits was due to a decrease in deposits denominated in foreign currency (-Afl. 19.5 million) and a growth in deposits

<sup>1</sup> Excluding revaluation differences of gold and foreign exchange holdings.

denominated in Aruban florin (+Afl. 15.8 million). Quasi-money shrank by Afl. 45.6 million to Afl. 2,135.1 million, mainly as a result of a decline in time deposits denominated in Aruban florin (-Afl. 42.3 million).

Source: Centrale Bank van Aruba

The drop in the domestic component of money supply was caused by decreases in domestic credit (-Afl. 11.9 million) and non-credit related balance sheet items (-Afl. 13.0 million). The decline in domestic credit resulted from lower claims of the banking sector on the private sector (-Afl. 17.0 million). In contrast, net claims of the banking sector on the public sector increased (+Afl. 5.1 million). The lower claims of the banking sector on the private sector (Chart 2) was caused by decreases in loans to enterprises (-Afl. 11.9 million), consumer credit (-Afl. 4.9 million), and housing mortgages (-Afl. 0.3 million). The rise in net claims of the banking sector on the public sector was the result of a contraction in government deposits (-Afl. 5.1 million).

In January 2022, the contraction in net foreign assets of the banking sector was due to net sales of foreign exchange of Afl. 244.0 million to the public, mainly associated with payments for goods imports, net transfers to foreign accounts, and other

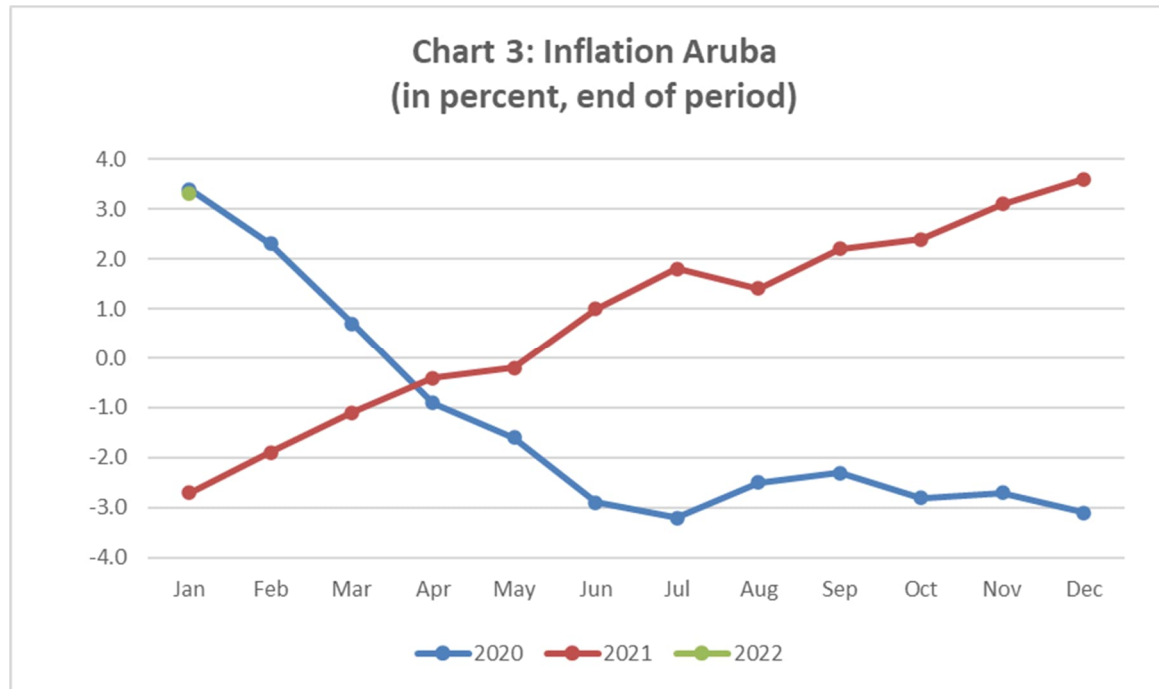

services. These were largely offset by net purchases of foreign exchange of Afl. 220.5 million from the public, mostly related to foreign exchange revenue from tourism exports (Table 1).

Table 1. Change in Net Foreign Assets (NFA) January 2022 (in Afl. million)	
Net purchases of foreign exchange	220.5
Tourism services	196.8
Transportation services	10.1
Direct investment	8.6
Financial derivatives	4.7
Capital account transactions	0.3
Net sales of foreign exchange	-244.0
Goods	-145.5
Net transfers to foreign accounts	-44.7
Other services	-27.3
Other investment	-7.3
Items not yet classified	-6.4
Primary income	-6.0
Secondary Income	-4.4
Government Services	-1.6
Portfolio investment	-0.7
NET CHANGE IN NFA (minus (-) denotes a decrease)	-23.5

## Inflation

The consumer price index (CPI) for January 2022 noted a 3.3 percent rise year-over-year (YOY) compared to a 3.6 percent increase (YOY) for December 2021 (Chart 3).

Source: Centrale Bureau of Statistics

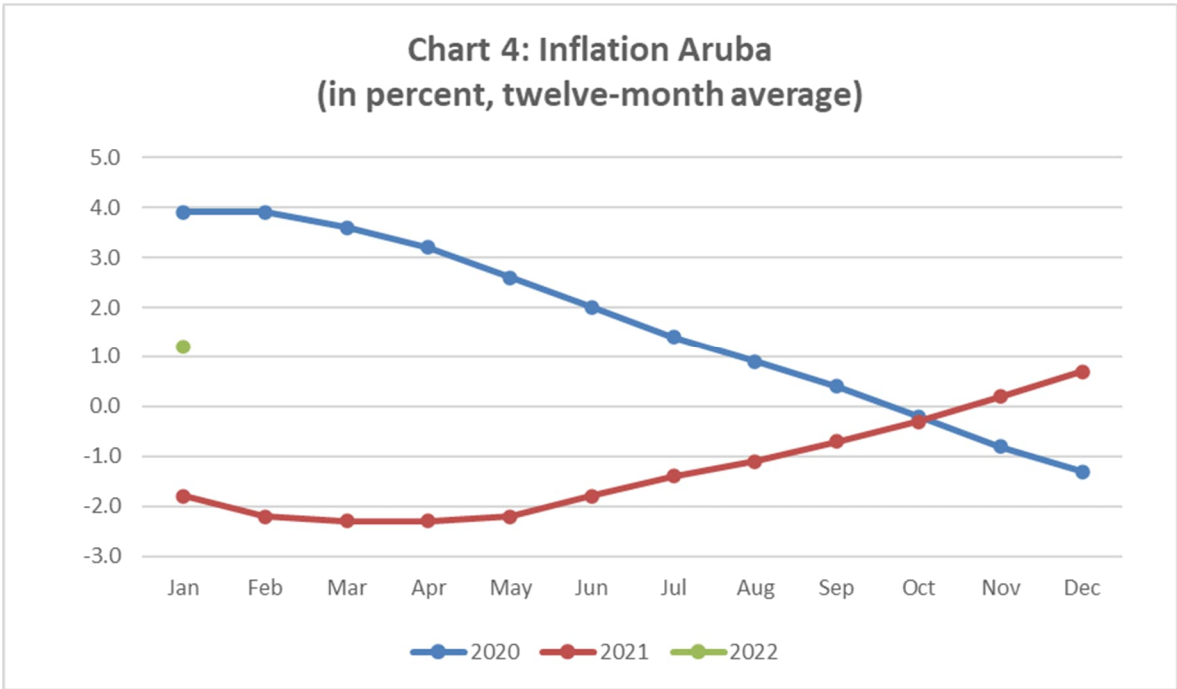

The main contributor to this increase was the “Transport” component. In addition, the “Food and Non-alcoholic Beverages”, “Clothing and Footwear”, “Housing”, “Household Operation”, “Recreation and Culture”, “Restaurants and Hotels”, and “Miscellaneous Goods and Services” components also noted increases. The component “Communication” noted a decrease, while the other components remained unchanged. Furthermore, by excluding the effect of food and energy<sup>2</sup>, the core CPI increased by 1.8 percent (YOY) (Table 2).

<sup>2</sup> Partly affects the housing and transport components.

Table 2: COMPONENTS OF INFLATION				
Inflation components	End-month		12-month	
	Jan-21	Jan-22	Jan-21	Jan-22

The 12-month average inflation rate was 1.2 percent in January 2022, compared to 0.7 percent in December 2021 (Chart 4).

Source: Centrale Bureau of Statistics

## Government

Total government revenue amounted to Afl. 102.8 million in January 2022, Afl. 13.2 million more than the same month of the previous year.

The rise in government revenue resulted from an increase in tax revenue (+Afl. 13.7 million) and a decrease in nontax revenue (-Afl. 0.7 million).

The growth in tax revenue was mainly driven by expansion in income from turnover tax (B.B.O./B.A.V.P) (+Afl. 4.5 million), foreign exchange tax (+Afl. 4.1 million), transfer tax (+Afl. 3.3 million), and import duties (+Afl. 2.4 million). In contrast, income from motor vehicle fees (-Afl. 3.0 million) decreased.

## Tourism

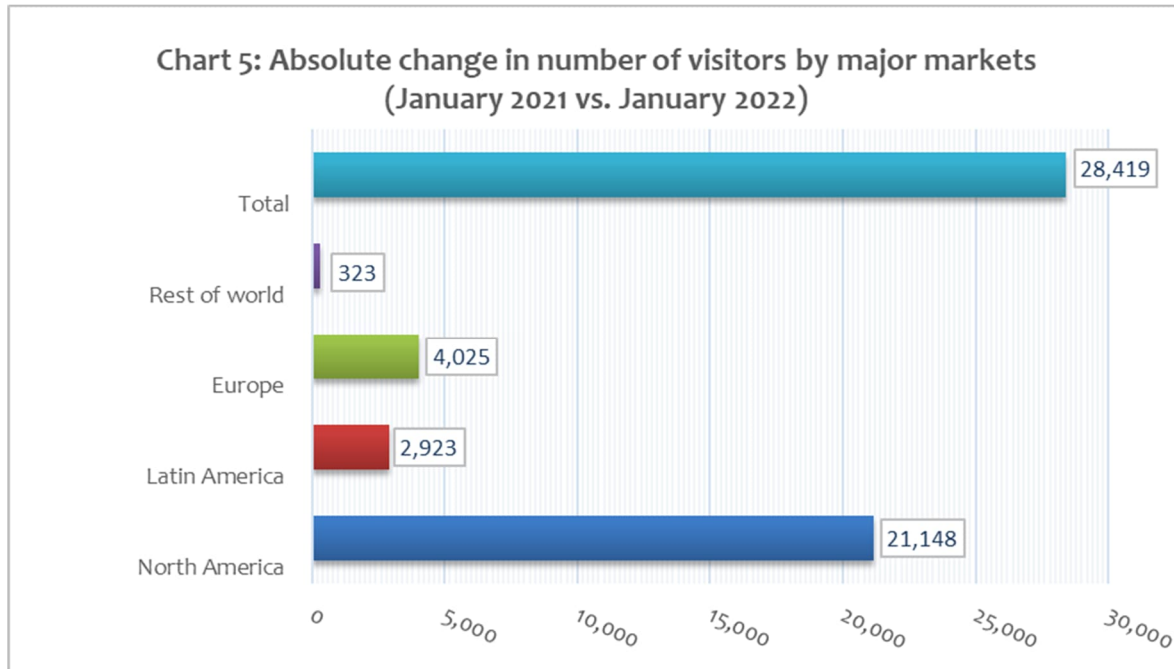

The number of stay-over visitors amounted to 59,793 in January 2022, which is 28,419 visitors (+90.6 percent) more than in January 2021.

The North American market, the Latin American market, and the European market increased by 21,148 visitors (+78.7 percent), 2,923 visitors (+165.0 percent), and 4,025 visitors (+218.0 percent), respectively.

The surge in the North American market resulted from more arrivals from both the United States (+19,345 visitors or +73.8 percent) and Canada (+1,803 visitors or +281.3 percent). The rise in the arrivals from the Latin American market was primarily due to more arrivals from Colombia, while the growth in the European market was mainly due to more arrivals from the Netherlands.

In the month under review, total number of nights spent in Aruba, as indicated by the visitors, increased by 80.6 percent to 556,970 as compared to the corresponding month for the year 2021. The average intended night stays experienced a decrease from 9.8 nights in January 2021 to 9.3 nights in January 2022.

The number of cruise visitors amounted to 45,463 in January 2022 and the number of ship calls 42. No cruise visitors were welcomed in January 2021.

\* The monetary survey consolidates the accounts of the Centrale Bank van Aruba, the commercial banks and the Government related only to the issuance of components of the money supply, i.e., coins and treasury bills. This survey shows the financial relationship between the monetary sector, whose liabilities include the money supply, and other sectors of the economy.

\*\* Gross claims include loans granted as well as government bonds in the hands of the monetary sectors and claims resulting from the issuance of treasury bills, cash certificates, and coins.

\*\*\* Revaluation differences of gold and official foreign exchange holdings are excluded in order to approximate the net import of foreign funds by the nonmonetary sectors.

1) The Diversification Index measures the concentration within the tourist market, and thus demonstrates the degree of diversification by tourist origin countries. The higher the index, the higher the level of concentration, meaning less diversification. For further reference on the methodology (which is an application of a Herfindahl-Hirschman index) see the Quarterly Bulletin (2011-I) of the CBA.
