October 5, 2022

CENTRALE BANK VAN ARUBA

Cover design:

Our golden tree, our Kibrahacha. Resilient, firmly rooted, and gives a beautiful bloom.

It offers us shade and protection if needed. When it breaks out, it displays an overwhelming yellow, illustrating a brighter and bolder future.

1) The Diversification Index measures the concentration within the tourist market, and thus demonstrates the degree of diversification by tourist origin countries. The higher the index, the higher the level of concentration, meaning less diversification. For further reference on the methodology (which is an application of a Herfindahl-Hirschman index) see the Quarterly Bulletin (2011-I) of the CBA.

5. Sensitivity to market risk															
a. Net foreign assets ⁶⁾ to regulatory capital	25.9	23.7	22.8	37.4	27.0	17.9	11.3	22.8	29.9	37.5	36.1	37.4	41.6	44.0	

1) As per September 1, 2021, the CBA eliminated the temporary prudential relief measures set during the Corona Virus Disease-19 Pandemic and increased the minimum risk-weighted capital ratio from 14 percent back to 16 percent.

2) Large loans: all loans or lines of credit in excess of 15 percent of the institution's test capital.

3) Weighted averages related to new loans granted during the indicated period.

4) As per September 1, 2021, the CBA eliminated the temporary prudential relief measures set during the Corona Virus Disease-19 Pandemic and decreased the maximum loan to deposit ratio from 85 percent back to 80 percent.

5) This is the Prudential Liquidity Ratio (PLR). As of September 1, 2021, the CBA eliminated the temporary prudential relief measures set during the Corona Virus Disease-19 Pandemic and increased the minimum PLR from 15 percent back to 18 percent.

6) Denominated in foreign currencies only.

1) Preliminary figures and estimates on a cash basis.

2) Including debt forgiveness.

3) Including dividend distributions.

4) Residual item, including errors and omissions.

5) In the second quarter of 2002, an early debt repayment of Afl. 45 million was received from Utilities N.V. related to the taking over of certain assets from the government in 1992.

6) Includes net-borrowing on behalf of public institutions.

7) Net long-term capital attracted from nonmonetary sectors mainly by issuing government bonds. The commercial bank's purchases of such bonds are included under item 7a, while the nonresident's purchases are included under 5.

8) The memorandum items for the fourth quarter of 2010 and 2011 are based on data provided by the DF and hence does not include the disputed amount between the government of Aruba and the APFA.

General and explanatory notes to the tables

E-mail: statistics.department@cbaruba.org Website: www.cbaruba.org

General note to the tables

Figures in the tables are quoted in millions of Aruban florin (Afl.), unless otherwise stated. The sum of separate items may differ in the final digit from the total shown, due to rounding.

Data are subject to revision if additional information becomes available.

The following symbols and conventions are used throughout the tables:

blank: not available

0.0: nil

(d): discontinuity in the series; this sign will be accompanied by an explanatory note in the back section of the report.

Explanatory notes to the tables

Table 1.1 Gross domestic product and its components

Gross Domestic Product (GDP) and its components are calculated on the basis of the United Nations publication "A System of National Accounts, 1993". The Central Bureau of Statistics (CBS) has published GDP figures for 1995 up to and including 2006.

Exports and imports of goods and services exclude crude oil and refined oil products. An estimation of the net value added of the oil sector is included in the data on exports.

The various GDP components are deflated individually and a weighted average of these individual deflators is used to derive an overall deflator, which in turn is used to calculate the real GDP.

Population data refer to the average of this variable at the beginning and at the end of each respective year.

Table 1.6 Consumer price indices

As of January 2017, the consumer price index (CPI), produced by the CBS, is based on the household expenditure survey conducted by the CBS during the months of May to June of 2016.

The expenditures are classified by categories according to the International Classification of Individual Consumption according to Purpose (COICOP) system for consumer expenditures and prices, which provides a suitable classification for CPI purposes.

In order to calculate consistent annual rates of change with the new classification, the CPI has to be calculated retrospectively for 2 years. Therefore, June of 2019 has been chosen as the new base period for the CPI. Subsequently, the CPI figures for 2017, 2018 and 2019 have been revised accordingly.

To convert the indexes prior to June 2019 to the new base period, these indexes should be multiplied by the ratio of the new and old index. For instance, the indexes in column 1 “Total index” prior to June 2019 should be multiplied by the ratio 0.7911 i.e.,

$$\frac{\text{June 2019 (New index)}}{\text{June 2019 (Old Index)}} = \frac{100.0}{126.4} = 0.7907$$

Table 1.9 Utilities

The table Utilities reflect the consumption of water, electricity and gas. The consumption of water is excluding sales to Aruba’s Oil Refining Company and vessels. Each category is presented on the basis of its standard unit of measure. The utilities index is calculated as a weighted average of the indexed consumption of water, electricity and gas. The weights used here are dynamic and fluctuate according to the relative significance (during a period) of the value of each consumption category in the aggregated value. Annual data are based on the year 1996 (=100), while quarterly data are based on an average of that year, since the quarterly data reflect only the consumption during a quarter, while the annual data is cumulative.

Table 1.10 and Table 1.11 Merchandise foreign trade, respectively by country and by product category

The data for these tables (by country and by product category) are collected through customs administration using the automated Harmonized Commodity Description and Coding System. In this system, about 8,500 documents related to export and import are registered on a monthly basis. The CBS processes this data using the International General Trade System. Certain types of goods are excluded from the data, e.g., monetary gold, securities, bank notes, coins in circulation, and postal items. Furthermore, goods consigned by a government to its armed forces and diplomatic representatives abroad (including embassies, consulates, the Cabinet of the Netherlands-Antillean and Aruban Affairs (VNO), the Cabinet of the Governor of Aruba representing the Queen of the Kingdom of the Netherlands, and the Marine Corps) are also excluded from the trade statistics. These exclusions are in accordance with the recommendations of the United Nations. Mineral fuels are also excluded.

The country from which goods are imported is the country of consignment or provenance from which goods are dispatched to Aruba without any commercial transactions in intermediate countries. The country of export is the country of destination known at the time of dispatchment as the final country to which goods are delivered.

Table 2.1 Monetary survey

The monetary survey consolidates the accounts of the Centrale Bank van Aruba (CBA), the commercial banks, and the government, related only to the issuance of components of

money supply, i.e., coins and treasury bills. This survey shows the financial relationship between the monetary sectors, whose liabilities include the money supply, and other sectors of the economy.

Net claims on public sector:

Gross claims

Resulting from the issuance of coins and treasury bills. Gross claims include loans granted, as well as government bonds in the hands of the monetary sector.

Net foreign assets:

Centrale Bank van Aruba

Revaluation differences of gold, official foreign exchange and security holdings are excluded in order to calculate the net flow of foreign funds by the nonmonetary sectors.

Table 2.2 Components of broad money

"Money" consists of bank notes, coins and demand deposits of the private sector. It does not include government deposits, neither the deposits of the commercial banks with the CBA, nor their cash holdings. "Quasi-money" comprises time and savings deposits with the commercial banks and the CBA, as well as treasury bills held by the private sector. This table shows the total liquid claims of the domestic private sector on money-creating institutions.

Table 2.3 Causes of changes in broad money

This table reflects the causes of changes in broad money broken down in net foreign assets and net domestic assets. The latter

include the non-credit-related balance sheet items of the money-creating institutions.

Inflow of foreign funds

Financial flows arising from changes in market prices and exchange rates of gold, official foreign exchange and security holdings are excluded in order to calculate the net flow of foreign funds by the nonmonetary sectors.

Table 2.4 Foreign assets

Aruba's net foreign assets consist mainly of convertible claims on nonresidents and gold less convertible liabilities to nonresidents, including revaluation of gold. Aruba has no accounts with the International Monetary Fund, because it participates in this institution as part of the Kingdom of the Netherlands. Until the end of 2000, the gold holdings of the CBA was valued once every three years at the lowest yearly average market price of gold, converted into florin, in the three calendar years preceding the date of valuation, less 30 percent. Since December 31, 1998, gold has been valued at Afl. 368.58 (previously: Afl. 450.74) per fine troy ounce. Effective December 31, 2001, gold is valued on a quarterly basis at the prevailing market rate. Financial flows arising from changes in these market prices and exchange rates of gold, official foreign exchange and security holdings of the CBA are included in the revaluation account.

Column:

(9) Revaluation differences

Revaluation account for gold, official foreign exchange and security holdings.

Table 3.1 Consolidated balance sheet of the money-creating institutions

Money-creating institutions

These are the CBA, the government and the commercial banks.

Claims on money-creating institutions:

Monetary authorities

These are institutions (the CBA and the government) that create base money.

Other domestic assets

Mainly equipment and miscellaneous items.

Revaluation differences

Revaluation account for gold, official foreign exchange and security holdings. In accordance with the Central Bank Ordinance as revised in December 1989, valuation changes arising from changes in the market prices and exchange rates of gold, official foreign exchange and security holdings are accounted for in a revaluation reserve.

Other domestic liabilities

Money in custody, miscellaneous items and other liabilities.

Table 3.2 Detailed balance sheet of the Centrale Bank van Aruba

Columns:

(2) Other

Mainly equipment and miscellaneous items.

(5 and 6) Foreign assets:

Claims on banks

Balances with foreign central and commercial banks in convertible and other currencies.

Claims on governments

Treasury bills and other securities issued by foreign governments and international organizations in convertible and other currencies.

(11) Bank notes issued

Bank notes held by the public and commercial banks.

(14) Official entities

Includes the Post Aruba N.V., the former post office.

(17) Other financial institutions' deposits

These institutions are bank-like financial institutions, such as mortgage and investment banks, licensed by the CBA to operate in the domestic market. Other nonbank financial institutions comprising, inter alia, insurance companies and pension funds, are included under column (18) "private sector".

(18) Private sector

Includes business enterprises, individuals, nonbank financial institutions and foundations.

(19) Other

Money in custody, other liabilities and the CBA's current net income position.

Table 3.4 Coins issued

The government issues coins, which are, therefore, its liability. The CBA buys the coins and resells them at face value to the commercial banks and to the public.

Table 4.1 Commercial banks: summary account

Commercial banks are financial institutions licensed to carry out banking operations with residents. These banks grant loans, and have among their liabilities deposits transferable by check or otherwise usable in making payments.

Commercial banks' transactions resulting in claims on, and liabilities to, nonresidents are included in this balance sheet only if these transactions are an integral part of their total activities. Offshore businesses sheltered in a separate accounting unit (where claims on nonresidents are kept equal to liabilities to nonresidents so that no net open position arises) are not included in this balance sheet.

Column:

(7) Capital and reserves:

Includes subordinated debt.

Table 4.3 Commercial banks: detailed balance sheet

Columns:

(6 to 9) Loans and advances:

Enterprises

Commercial loans and advances to private and public enterprises and official entities. Public enterprises consisting of, inter alia, the

Telecommunications Company (SETAR), are companies producing goods and nonfinancial services, whose shares are fully or largely owned by the government.

Mortgages

Loans and advances to enterprises and individuals secured by real estate.

Individuals

Loans (including credit card loans) and advances to individuals, excluding mortgages.

Government

Loans and advances to the government, excluding official entities.

(10) Premises

The commercial banks' own buildings, other real estate, and equipment.

(11) Subsidiaries

Holdings of at least 10 percent of the equity capital of other companies and advances to these companies.

(12) Accounts receivable

Costs, commissions, dividends, rents, and other income earned or accrued, but not yet collected, as well as prepaid expenses not included in the banks' current profit and loss accounts.

(21) Total assets

The balance sheet total does not correspond with that of table 4.1, because in this table interbank assets and liabilities have been netted out; the net figure is recorded in column (13) "other (net)".

(22 to 25) Demand deposits

Deposits withdrawable on demand, in the form of balances on checking and similar accounts. Also included are time deposits matured but not renewed.

(26 to 29) Time deposits

Deposits with a specific original maturity.

(30) Savings deposits

Deposits with certain withdrawal restrictions, but with no specific maturity condition.

(31) Other liabilities

Accounts payable, provision for loan losses and items not included elsewhere.

(32) Capital and reserves

Paid-up capital by residents, reserves, retained profits, and the banks' current net income position.

(33) Subordinated debt

Liabilities subordinated to claims of depositors and other creditors.

Table 4.4 and Table 4.5 Commercial banks' loans to domestic sectors by kind of economic activity

These tables provide a distribution of resident commercial loans to economic sectors according to the third revision of the International Standard Industrial Classification (ISIC) of all economic activities of 1990 of the United Nations. Table 4.4 gives an overview of the outstanding commercial loans, loans to government and to individuals of the banking sector, divided in

three categories, i.e., current accounts, term loans and mortgages, and their contribution in total loans, for the period under review. Table 4.5 gives a historic overview of the outstanding loans of the banking sector provided in Table 4.4.

Table 5.1 Nonmonetary financial institutions

This table provides the financial positions of the nonmonetary financial institutions with residents and nonresidents. It comprises mortgage banks, pension funds, life insurance companies, finance companies, the Aruban Investment Bank, the Social Security Bank and IBA Corporation N.V (established in October 2003 to support the settlement of the take-over of Interbank Aruba N.V. by Aruba Bank N.V.). As of 2009, also nonlife insurance companies are included.

Table 5.2: Housing mortgages

This table provides the housing mortgages loan portfolio of the financial sector, including the nonmonetary financial institutions.

Table 5.3 Financial survey

The financial survey provides an overview of the activity of the financial sector as a whole. It covers financial positions of the financial sector with other domestic sectors and nonresidents. It comprises the accounts of the CBA, the Treasury (the government, related only to the issuance of components of money supply, i.e., coins and treasury bills), the commercial banks, and the aggregated accounts of the nonmonetary financial institutions, comprising mortgage banks, pension funds, life insurance companies, finance companies, the Aruban Investment

Bank, the Social Security Bank and IBA Corporation N.V (established in October 2003 to support the settlement of the take-over of Interbank Aruba N.V. by Aruba Bank N.V.) . As of the third quarter of 2009, also nonlife insurance companies are included.

Table 6.1 Interest rates of commercial banks

As of September 1998, the CBA introduced a new method to report and calculate the interest rates on deposits and loans of the commercial banks. The interest rates shown represent the period weighted average rates of these banks on new loans and deposits for domestic activities. Nominal interest rates are used for the deposits. An annual percentage rate (APR) is calculated for the interest rates charged on consumer credit. A weighted average rate of interest is calculated for both deposits (i.e., time and savings) and loans (i.e., individual and commercial). Subsequently, a margin between the credit and debit rate is computed.

Table 6.6 and Table 6.7 Official foreign exchange rates (selling)

The CBA's minimum selling rates for officially quoted currencies for customers. The foreign exchange banks' selling rates of the currencies shown in the table are fixed daily by the CBA on the basis of middle market rates quoted for those currencies against the U.S. dollar.

Officially quoted rates for other currencies are determined by means of a fixed percentage margin on either side of the middle rate for each currency. Offshore customers, or customers with

larger amounts of foreign currency to be bought or sold, may negotiate an exchange rate to settle transactions with their banks. Rates at which foreign exchange banks will buy and sell the U.S. dollar from and to the public:

	minimum buying rates		maximum selling rates
as from:	bank notes	cheque and cable transfers	
Jan 1, 1986	1.77	1.79	1.81
May 18, 1987	1.77	1.78	1.80

Table 7.1 Government financial operations

This table provides a summary of the financial operations of the government on a cash basis, including imputed noncash transactions such as the transactions related to the hotel guarantee issue and the APFA debt conversion.

The government, as defined by the CBA, comprises all departments, including the Department of Public Works (DOW), "Landsbedrijf Ontwikkelingsprojecten" (LOP) and the Fondo Desaroyo Aruba (FDA). Thus, excluded are the social security sector, which comprises mainly the Social Security Bank (SVB) and the General Health Insurance (AZV).

In December 2004, following the approval by the Parliament of Aruba of the privatization of the civil servants pension fund,

APFA, an agreement between the government and the APFA was reached on a debt conversion pertaining to existing payment arrears in premiums and cost of living allowances and private loans extended by the APFA to the government. The conversion consisted of a 12-year bond and a 35-year annuity loan, while a small part will be settled against future tax liabilities of APFA to the government.

The government finance data for the period between 1992 and 2003 were also revised to include the government's debt assumption, including a debt forgiveness, related to the hotel guarantees issued in the past.

Revenue and grants

Comprise receipts recorded by the Tax Collector's Office, the Department of Finance and the CBA. Tax and nontax revenues are classified according to the nature of the base on which the tax is levied or the kind of action which creates the obligation concerned. Grants are unrequited, nonrepayable, non-compulsory receipts from other governments or international institutions. Grants and debt forgiveness are also included in nontax revenue.

Expenditure

Comprises expenditures recorded by the Department of Finance, and the Fondo Desaroyo Arubano (FDA).

Lending minus repayments

This category covers government payments leading to financial claims upon others or to government equity participation in the ownership of enterprises, minus receipts reducing or

extinguishing such claims or equity holdings undertaken for public policy purposes.

Net financing

Net financing comprises net foreign capital, nonbank domestic capital, and the net recourse to the monetary system of the government.

Net foreign capital

Includes net-borrowing on behalf of public institutions, bonds issues and private placements on international markets.

Net domestic capital

Includes net-borrowing from nonmonetary sectors, mainly by issuing government bonds and the reclassification of the debt settlement mentioned in the heading expenditure.

Net recourse to the monetary system

Includes commercial banks loans to the government, purchases of government bonds by those banks, drawing on governments' deposits and treasury bills issue.

Memorandum items

The unmet financing requirements comprise all registered payment obligations to other sectors, irrespective of the time frame in which they mature. The financial deficit under this heading includes the change in the unmet financing requirements.

Table 7.2 Government revenue

This table provides a detailed overview of the total government revenue, subdivided into taxes, nontax revenue and grants.

In March 2003, a debt forgiveness amounting to Afl. 171.7 million granted by the Italian export credit insurer, SACE, to the government as part of the settlement of the hotel guarantees issued in the past was classified as a capital transfer and registered in the item other nontax revenue.

Table 7.3 Government position with the monetary system

This table covers the government's financial position with the CBA and the commercial banks. It gives an overview of the government's deposits with the CBA and the local commercial banks and its liabilities to the monetary authorities and local commercial banks.

Table 7.4 Outstanding government debt

Table 7.4 gives a detailed overview of the outstanding government debt based on information provided by the Department of Finance, the APFA and the CBA. The total debt, excluding the outstanding government guarantees, is divided into a domestic and a foreign debt component. The domestic debt comprises negotiable and non-negotiable debt, which is further divided into short and long term. The foreign debt, valued at end-of-period exchange rates, includes the debt to the Netherlands, the European Investment Bank, the United States and a residual category, comprising among others the Netherlands Antilles. With regard to the latter, governments bonds held by nonresidents are also included.

Data on outstanding government debt for the period between 1992 and 2003 were revised to reflect the government's debt assumption related to the hotel guarantees issued in the past.

Table 8.1 Balance of payments summary

Current and capital and financial accounts

The balance of payments records transactions between residents and nonresidents on goods, services, and income, as well as changes in Aruba's financial claims on, and liabilities to the rest of the world. The basic data to compile the balance of payments are obtained from residents (with the exception of companies with a nonresident status, i.e., offshore companies), who are legally obliged to report to the CBA their transactions with nonresidents. In practice, licensed foreign exchange banks, operating either as intermediaries or on their own behalf, report the bulk of the transactions. Enterprises, including the Oil Refinery, holding accounts with nonresidents are also obliged to report. Changes in the balance on these accounts are registered by the CBA either as an increase or a decrease in currency and deposits included in other investment, as well as in other capital included in direct investment. Other quarterly and annual reports of enterprises are also used for obtaining additional information on, inter alia, foreign assets and liabilities.

Net errors and omissions

Imbalances resulting from imperfections in source data and compilation are included in net errors and omissions. Net errors and omissions are derived from net lending/net borrowing from the financial account minus net lending/net borrowing from the current and capital accounts.

Table 8.2 Components of the current and capital accounts

Goods

Goods comprise import and export related payments of crude oil and oil products, as well as import and export related payments by sector other than the oil sector effectuated through the banking system and notified foreign accounts. Non-oil merchandise import payments by the oil sector, goods procured in ports and repair goods are also included.

Services:

Transportation

Transportation contains, among other things, harbor dues and fees, and passenger fares. Data on transportation are based on the relevant payments. However, adjustment are made to allow for the fact that in the balance of payments goods are recorded consistently as a f.o.b. basis.

Travel

Travel refers to the consumption of goods and services acquired by nonresidents (residents) during their visit to Aruba (abroad). Travel does not include passenger fares, which are captured in Transportation services. Travel is compiled from transactions in foreign currency, traveler's checks, and credit cards as reported by the foreign exchange banks, as well as companies holdings notified foreign accounts.

Government n.i.e

Included as inflows are payments by the government of the Netherlands in connection with its representative office in Aruba (including the Dutch Royal Navy). Outflows comprise, among others, payments by the Aruban government related to its

representative office in the Netherlands ("Aruba Huis") and payments by Aruba Tourism Authority for tourism promotion abroad.

Other services

Other services consist mainly of financial services, construction services, government goods & services, telecommunication, computer, and information services, and management fees. Please refer to Table 8.3 for detail information.

Primary Income

Primary income covers profits, dividends, and interest receipts and payments. Please refer to Table 8.3 for detail information.

Secondary Income

Secondary income covers private transfers, pensions, alimonies, and other support remittances and official transfers. Please refer to Table 8.3 for detail information.

Capital account

Capital account consists of capital transfers, acquisition/disposal of non-produced nonfinancial assets, and transfers in connection with development aid (capital grants).

Table 8.3 Selected current account components

Other services

Other services consist of financial services, construction services, government goods & services, telecommunication, computer, and information services, and other items. Other items include all other services not included elsewhere, including management

fees, transactions for industrial maintenance, contracting works, royalties, insurance services, rents, and leases.

Primary Income

Primary income covers profits and dividends receipts and payments on equity investments and participations, as well as interest on public and private sector loans, debt securities, and foreign assets and personal earned income.

Secondary Income

Secondary income covers private transfers, i.e., workers' remittances and other current transfers of individuals as well as pension, alimony and other support remittances and official transfers, i.e., grants for social and cultural projects and contribution to the Solidarity fund.

Table 8.4 Components of the financial account

Financial account covers direct investment, portfolio investment, financial derivatives, other investment, and reserve assets.

It should be noted that banking transactions of the commercial banks and official reserves of the CBA are no longer shown as separate items 'below' the line, but are now included in the respective assets and liabilities of the financial account 'above' the line.
