## I. Main economic indicators

### Monetary developments

In October 2022, money supply contracted by Afl. 12.5 million to Afl. 5,381.8 million, compared to September 2022, resulting from a drop in net foreign<sup>1</sup> assets (-Afl. 20.9 million) and an increase in net domestic assets (+Afl. 8.4 million) (See Chart 1).

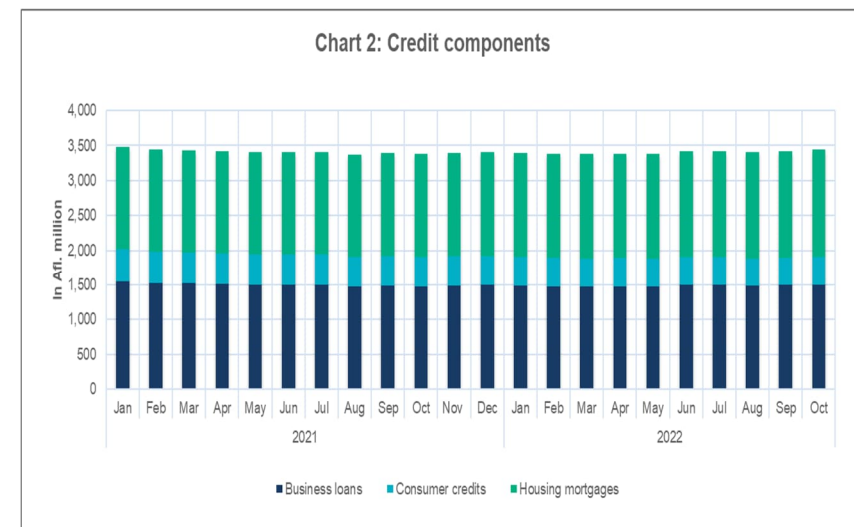

Source: Centrale Bank van Aruba

Money, as a component of broad money, declined by Afl. 9.6 million to Afl. 3,341.8 million, resulting from decreases in both demand deposits (-Afl. 6.6 million) and money in circulation (-Afl. 2.9 million). The reduction in demand deposits was due to a contraction in deposits denominated in foreign currency (-Afl. 13.9 million) and an increase in deposits denominated in Aruban florin (+Afl. 7.2 million). In addition, quasi-money declined by Afl. 2.9 million to Afl. 2,040.0 million, due to a decrease in savings

<sup>1</sup> Excluding revaluation differences of gold and foreign exchange holdings.

denominated in Aruban florin (-Afl. 7.4 million). In contrast, time deposits denominated in Aruban florin (+Afl. 3.9 million) increased.

The expansion in the domestic component of the money supply was caused by a growth in domestic credit (+Afl. 23.4 million) and a decrease in non-credit-related balance sheet items (-Afl. 15.0 million). The rise in domestic credit was due to higher claims of the banking sector on the private sector (+Afl. 14.8 million) and higher net claims of the banking sector on the public sector (+Afl. 8.6 million). The increase in claims of the banking sector on the private sector (Chart 2) was caused by higher loans to enterprises (+Afl. 7.3 million), housing mortgages (+Afl. 5.8 million), and consumer credit (+Afl. 1.8 million). The growth in net claims of the banking sector on the public sector was the result of a decline in government deposits (-Afl. 8.5 million).

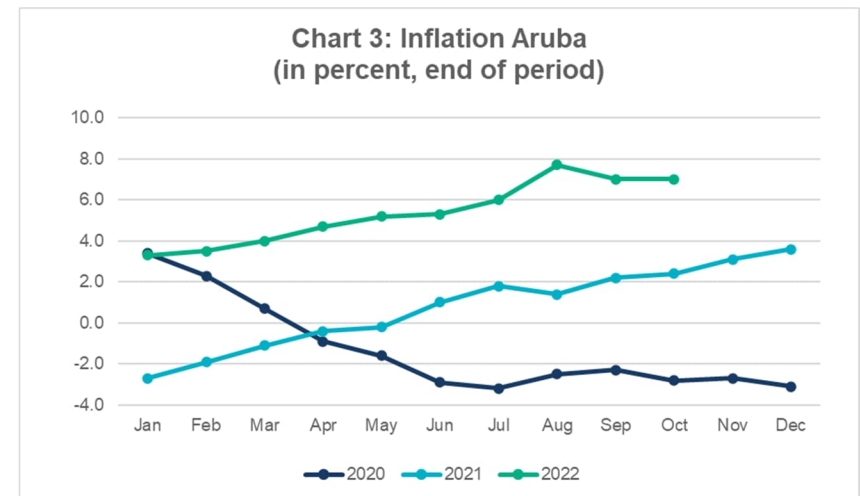

In October 2022, the decline in net foreign assets of the banking sector was due to net sales of foreign exchange of Afl. 296.4 million to the public, mainly associated with payments for goods imports, other services, and other investment. These were largely offset by net purchases of foreign exchange of Afl. 275.5 million from the public, mostly related to foreign exchange revenue from tourism exports and direct investment (Table 1).

## Inflation

The consumer price index (CPI) for October 2022 noted a 7.0 percent rise year-over-year (YOY), the same percentage increase (YOY) as for September 2022 (Chart 3).

Source: Centrale Bank van Aruba

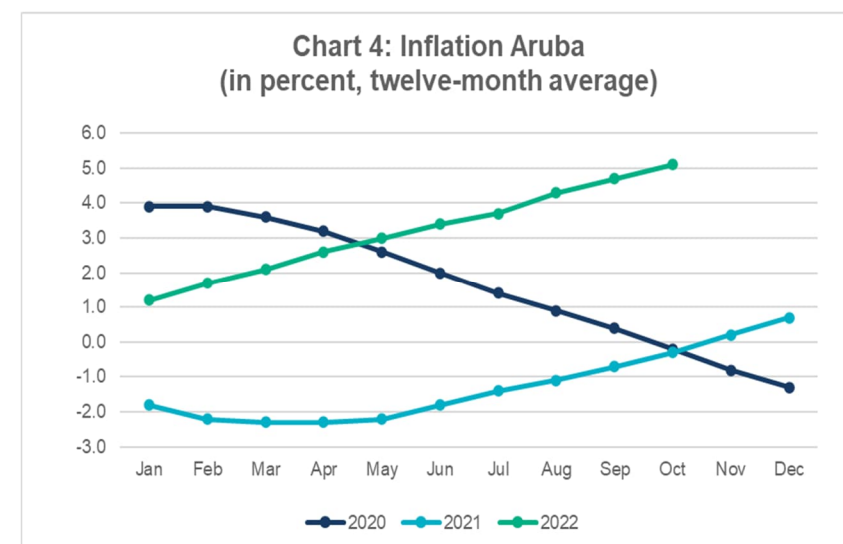

The main contributors to this increase were the “Housing,” “Transport,” and “Food and Non-alcoholic Beverages” components. In addition, the components “Household Operation,” “Recreation and Culture,” “Restaurants and Hotels,” and “Miscellaneous Goods and Services” also noted increases. The components “Communication” and “Clothing and Footwear” noted decreases, while the other components remained unchanged. Furthermore, by excluding the effect of food and energy<sup>2</sup>, the core CPI increased by 2.7 percent (YOY) (Table 2).

<sup>2</sup> Partly affects the housing and transport components.

## Government

**Total government revenue amounted to Afl. 88.6 million in October 2022, Afl. 2.4 million less than the same month of the previous year.**

The contraction in government revenue resulted from a decrease in nontax revenue (-Afl. 17.1 million) and an increase in tax revenue (+Afl. 14.7 million) .

The growth in tax revenue was mainly driven by expansion in income from import duties (+Afl. 5.5 million), wage tax (+Afl. 3.0 million), and turnover tax (B.B.O./B.A.V.P.) (+Afl. 2.5 million).

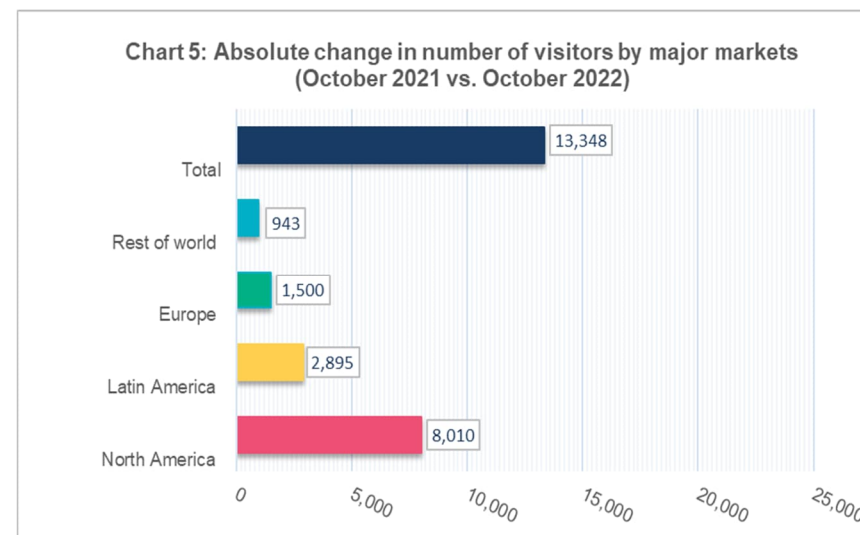

## Tourism

**The number of stay-over visitors amounted to 83,404 in October 2022, which is 13,348 visitors (+19.1 percent) more than in October 2021.**

The North American market, the Latin American market, and the European market increased by 8,010 visitors (+14.1 percent), 2,895 visitors (+60.2 percent), and 1,500 visitors (+24.9 percent), respectively.

The surge in the North American market resulted from more arrivals from the United States (+6,024 visitors or +10.9 percent). The rise in the arrivals from the Latin American market was primarily due to more arrivals from Colombia and Argentina, while the growth in the European market was due to more arrivals from the United Kingdom.

In the month under review, the total number of nights spent in Aruba, as indicated by the visitors, increased by 18.3 percent to 615,757 as compared to the corresponding month for the year 2021. The average intended night stays remained unchanged at 7.4 nights in October 2022. The number of cruise visitors amounted to 46,347 in October 2022 and the number of ship calls was 18.

\* The monetary survey consolidates the accounts of the Centrale Bank van Aruba, the commercial banks and the Government related only to the issuance of components of the money supply, i.e., coins and treasury bills. This survey shows the financial relationship between the monetary sector, whose liabilities include the money supply, and other sectors of the economy.

\*\* Gross claims include loans granted as well as government bonds in the hands of the monetary sectors and claims resulting from the issuance of treasury bills, cash certificates, and coins.

\*\*\* Revaluation differences of gold and official foreign exchange holdings are excluded in order to approximate the net import of foreign funds by the nonmonetary sectors.

1) The Diversification Index measures the concentration within the tourist market, and thus demonstrates the degree of diversification by tourist origin countries. The higher the index, the higher the level of concentration, meaning less diversification. For further reference on the methodology (which is an application of a Herfindahl-Hirschman index) see the Quarterly Bulletin (2011-I) of the CBA.

2) Tourism credits is compiled from transactions in foreign currency, traveler's checks, and credit cards, as reported by the foreign exchange banks.
