March 15, 2024 Issue no. 428

Mangroves are hotspots of biodiversity, connecting life on land with life below water. These 'forests of the sea' are essential to the health and vibrancy of our coastal ecosystems, including our community livelihoods. They provide a vital habitat for marine life, help to protect against coastal erosion and storm surges, as well as filter pollutants from the sea. Mangroves are one of nature's most effective tools in the fight against climate change and are integral to nature.

## I. Main economic indicators

## Monetary developments

In July 2023, money supply contracted by Afl. 105.6 million to Afl. 5,620.7 million, compared to June 2023, resulting from a decrease in net domestic assets (-Afl. 173.1 million) and an increase in net foreign<sup>1</sup> assets (+Afl. 67.5 million) (See Chart 1).

#### Source: Centrale Bank van Aruba

Money, as a component of broad money, dropped by Afl. 150.9 million to Afl. 3,465.1 million, due to a decline in demand deposits (-Afl. 153.1 million) and an increase in money in circulation (+Afl. 2.3 million). The contraction in demand deposits resulted from decreases in deposits denominated in both Aruban florin (-Afl. 136.9 million) and foreign currency (-Afl. 16.2 million). Quasi-money expanded by Afl. 45.3 million to

Afl. 2,155.5 million, due to increases in both time deposits (+Afl. 35.6 million) and savings deposits (+Afl. 7.7 million) denominated in Aruban florin.

In July 2023, the growth in net foreign assets of the banking sector was due to net purchases of foreign exchange of Afl. 316.8 million from the public, mostly related to foreign exchange revenue from tourism exports. These were largely offset by net sales of foreign exchange of Afl. 249.3 million to the public, mainly associated with payments for goods imports (Table 1).

The development in the domestic component of the money supply was caused by decreases in both domestic credit (-Afl. 161.5 million) and non-credit-related balance sheet items (-Afl. 11.6 million). The drop in domestic credit was due to lower net claims of the banking sector on the public sector (-Afl. 180.9 million) and higher claims of the banking sector on the private sector (+Afl. 19.4 million). The contraction in net claims of the banking sector on the public sector was the result of an expansion in government deposits (+Afl. 178.4 million). The growth in claims of the banking sector on the private sector (Chart 2) resulted from increases in loans to enterprises (+Afl. 11.5 million), housing mortgages (+Afl. 4.5 million), and consumer credit (+Afl. 3.4 million).

### Inflation

The consumer price index (CPI) for July 2023 noted a 1.7 percent rise year-over-year (YOY), compared to a 2.8 percent increase (YOY) for June 2023 (Chart 3).

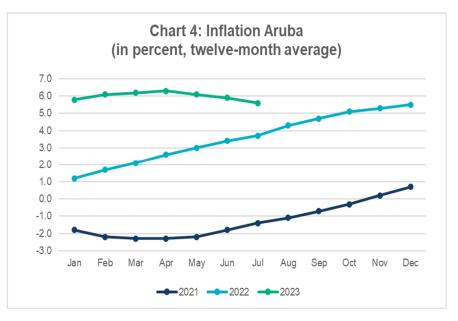

Source: Centrale Bank van Aruba

The main contributor to this increase was the "Housing" component. In addition, the components "Food and Nonalcoholic Beverages," "Communication," "Household Operation," "Restaurants and Hotels," and "Miscellaneous Goods and Services" also noted an uptick. The components "Transport," "Recreation and Culture," and "Clothing and Footwear" noted decreases, while the other components remained unchanged. Furthermore, by excluding the effect of food and energy<sup>2</sup>, the core CPI rose by 1.0 percent (YOY) (Table 2).

Government

E-mail: statistics.department@cbaruba.org Website: www.cbaruba.org

<sup>&</sup>lt;sup>2</sup> Partly affects the housing and transport components.

Total government revenue amounted to Afl. 125.7 million in July 2023, Afl. 1.8 million more than the same month of the previous year.

The expansion in government revenue resulted from an increase in tax revenue (+Afl. 15.0 million) and a decrease in nontax revenue (-Afl. 13.2 million).

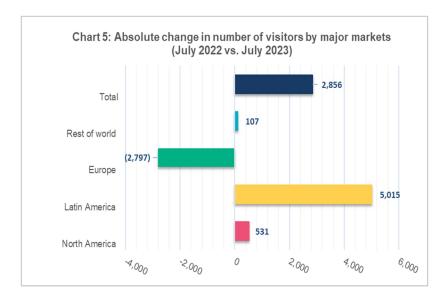

The growth in tax revenue was mainly driven by the expansion in income from turnover tax (B.B.O./B.A.V.P.) (+Afl. 9.3 million) and hotel room tax (+Afl. 4.6 million). In contrast, income from transfer tax decreased (-Afl. 3.2 million).

## Tourism

The number of stay-over visitors amounted to 111,862 in July 2023, which was 2,856 visitors (+2.6 percent) more than in July 2022.

The Latin American market and the North American market increased by 5,015 visitors (+66.3 percent) and 531 visitors (+0.6 percent), respectively. In contrast, the European market fell by 2,797 visitors (-31.4 percent).

The surge in the Latin American market was primarily due to more arrivals from Colombia and Brazil, while the rise in the North American market resulted from more arrivals from Canada. The drop in the European market was mostly driven by less arrivals from the Netherlands and the United Kingdom. In the month under review, the total number of nights spent in Aruba, as indicated by the visitors, increased by 0.4 percent to 790,966 as compared to the corresponding month for the year 2022. The average intended night stays experienced a slight decrease from 7.2 nights in July 2022 to 7.1 nights in July 2023. The number of cruise visitors amounted to 23,906 in July 2023 and the number of ship calls was 8.

\* The monetary survey consolidates the accounts of the Centrale Bank van Aruba, the commercial banks and the Government related only to the issuance of components of the money supply, i.e., coins and treasury bills. This survey shows the financial relationship between the monetary sector, whose liabilities include the money supply, and other sectors of the economy.

\*\* Gross claims include loans granted as well as government bonds in the hands of the monetary sectors and claims resulting from the issuance of treasury bills, cash certificates, and coins.

\*\*\* Revaluation differences of gold and official foreign exchange holdings are excluded in order to approximate the net import of foreign funds by the nonmonetary sectors.

1) The Diversification Index measures the concentration within the tourist market, and thus demonstrates the degree of diversification by tourist origin countries. The higher the index, the higher the level of concentration, meaning less diversification. For further reference on the methodology (which is an application of a Herfindahl-Hirschman index) see the Quarterly Bulletin (2011-I) of the CBA.

2) Tourism credits is compiled from transactions in foreign currency, traveler's checks, and credit cards, as reported by the foreign exchange banks.
