CENTRALE BANK VAN ARUBA

Cover design:

Our turtles.

They choose Aruba's beaches as a safe haven;

They choose Aruba's beaches as their breeding ground;

They connect and communicate through vocalizations and body language.

Their slow and steady pace represents resilience and endurance.

The full text of this report is available on the CBA website.

Quarterly Tables Financial Markets Q2 2024

General note to the tables

Figures in the tables are quoted in millions of Aruban florin (Afl.), unless otherwise stated. The sum of separate items may differ in the final digit from the total shown, due to rounding.

Data are subject to revision if additional information becomes available.

The following symbols and conventions are used throughout the tables:

blank: not available

0.0: nil

(d): discontinuity in the series; this sign will be accompanied by an explanatory note in the back section of the report.

Explanatory notes to the tables

Table 6.1 Interest rates of commercial banks

As of September 1998, the CBA introduced a new method to report and calculate the interest rates on deposits and loans of the commercial banks. The interest rates shown represent the period weighted average rates of these banks on new loans and deposits for domestic activities. Nominal interest rates are used for the deposits. An annual percentage rate (APR) is calculated for the interest rates charged on consumer credit. A weighted average rate of interest is calculated for both deposits (i.e., time and savings) and loans (i.e., individual and commercial). Subsequently, a margin between the credit and debit rate is computed.

Table 6.6 and Table 6.7 Official foreign exchange rates (selling)

The CBA's minimum selling rates for officially quoted currencies for customers. The foreign exchange banks' selling rates of the currencies shown in the table are fixed daily by the CBA on the basis of middle market rates quoted for those currencies against the U.S. dollar.

Officially quoted rates for other currencies are determined by means of a fixed percentage margin on either side of the middle rate for each currency. Offshore customers, or customers with larger amounts of foreign currency to be bought or sold, may negotiate an exchange rate to settle transactions with their banks.

Correspondence related to this business perception survey report should be addressed to the Statistics Department of the Centrale Bank van Aruba via Website: www.cbaruba.org or E-mail: statistics.department@cbaruba.org

Rates at which foreign exchange banks will buy and sell the U.S. dollar from and to the public:

as from:	minimum	maximum	
	buying rates	selling rates	
	bank notes	cheque and cable transfers	
Jan 1, 1986	1.77	1.79	1.81
May 18, 1987	1.77	1.79	1.80
