General note to the tables

Figures in the tables are quoted in millions of Aruban florin (Afl.), unless otherwise stated. The sum of separate items may differ in the final digit from the total shown, due to rounding.

Data are subject to revision if additional information becomes available.

The following symbols and conventions are used throughout the tables:

Blank : not available

- 0.0 : nil or less than half the final digit shown
- d : discontinuity in the series; this sign will be accompanied by an explanatory note in the back section of this digest
- p : provisional data

Explanatory notes to the tables

Table 8.1 Balance of payments summary

Based on new information obtained, the series-data of balance of payments have been revised for the period 2013-2022.

Current and capital and financial accounts

The balance of payments records transactions between residents and nonresidents on goods, services, and income, as well as changes in Aruba's financial claims on, and liabilities to the rest of the world. The basic data to compile the balance of payments are obtained from residents (with the exception of companies with a nonresident status, i.e., offshore companies), who are legally obliged to report to the CBA their transactions with nonresidents. In practice, licensed foreign exchange banks, operating either as intermediaries or on their own behalf, report the bulk of the transactions. Enterprises holding accounts with nonresidents are also obliged to report. Changes in the balance on these accounts are registered by the CBA either as an increase or a decrease in currency and deposits included in other investment, as well as in other capital included in direct investment. Other monthly, quarterly, and annual reports of enterprises are also used for obtaining additional information on, inter alia, foreign assets and liabilities.

Net errors and omissions

Imbalances resulting from imperfections in source data and compilation are included in net errors and omissions. Net errors and omissions are derived from net lending/net borrowing from the financial account minus net lending/net borrowing from the current and capital accounts.

Table 8.2 Components of the current and capital accounts Goods

Goods comprise import and export related payments of crude oil and oil products, as well as import and export related payments by sector other than the oil sector effectuated through the banking system and notified foreign accounts. Non-oil merchandise import payments by the oil sector, goods procured in ports and repair goods are also included.

Services:

Transportation

Transportation contains, among other things, harbor dues and fees, and passenger fares. Data on transportation are based on the relevant payments. However, adjustments are made to

allow for the fact that in the balance of payments goods are recorded consistently as a f.o.b. basis.

Travel

Travel refers to the consumption of goods and services acquired by nonresidents (residents) during their visit to Aruba (abroad). Travel does not include passenger fares, which are captured in Transportation services. Travel is compiled from transactions in foreign currency, traveler's checks, and credit cards as reported by the foreign exchange banks, as well as companies holdings notified foreign accounts.

Government n.i.e

Inflows are payments by the government of the Netherlands in connection with its representative office in Aruba (including the Dutch Royal Navy). Outflows comprise, among others, payments by

the Aruban government related to its representative office in the Netherlands ("Aruba Huis") and payments by Aruba Tourism Authority for tourism promotion abroad.
