

Businesses Perception Index fell during the first quarter of 2026.

Press release

The Central Bank of Aruba (CBA) concluded its Business Perception Survey (BPS) for the first quarter of 2026. The BPS assesses the economic sentiments of local businesses.

The Business Perception Index, comprising the expected short-term and current economic conditions, decreased by 3.7 percentage points to 104.3 in the first quarter of 2026 (see chart 1)¹.

Chart 1: Business Perception Index dropped during the first quarter of 2026.

The short-term economic and current economic conditions index contracted by 5.6 and 1.9 index points to 102.4 and 106.0, respectively, in the first quarter of 2026 (see chart 2).

¹ The index can vary between 90 and 110. Between 90 and 100 indicates a situation of pessimism. An index of exactly 100 indicates that businesses are neither pessimistic nor optimistic but are neutral with regard to their thoughts about economic developments in Aruba. Between 100 and 110 indicates a situation of optimism in business sentiments.

About the Centrale Bank van Aruba

The main purpose of the Centrale Bank van Aruba (CBA) is to contribute to the financial stability and economic well-being of the Aruban community. The CBA accomplishes this mission by implementing an effective monetary policy aimed towards maintaining the value of the florin, by promoting the soundness and integrity of the financial system, and by enhancing an efficient and reliable payments system.

Besides these core tasks, the CBA is also the sole issuer of florin banknotes and florin coins, and acts as banker to the government. In addition, it regulates the flow of international payments, manages the available foreign exchange reserves of Aruba, and supervises the spending thereof.
