1. Main economic indicators

Monetary developments

In June 2026, money supply expanded by Afl. 350.9 million to Afl. 7,722.7 million, compared to May 2026, resulting from a surge in domestic assets (+Afl. 358.7 million) and a decrease in net foreign¹ assets (-Afl. 7.8 million) (see chart 1).

Source: Centrale Bank van Aruba

Money, as a component of broad money, expanded by Afl. 423.5 million to Afl. 4,811.5 million, due to a surge in demand deposits (+Afl. 417.0 million) and a rise in currency in circulation (+Afl. 6.5 million). The expansion

in demand deposits resulted from increases in deposits denominated in Aruban florin (+Afl. 319.9 million) as well as deposits denominated in foreign currency (+Afl. 97.1 million). Quasi-money contracted by Afl. 72.5 million to Afl. 2,911.3 million, due to a decrease in time deposits denominated in Aruban florin (-Afl. 90.2 million). Savings deposits denominated in Aruban florin (+Afl. 15.0 million) and time deposits denominated in foreign currency (+Afl. 4.1 million) increased.

The development in the domestic component of the money supply was caused by an expansion in domestic credit (+Afl. 366.5 million) and a contraction in non-credit-related balance sheet items (-Afl. 7.7 million). The growth in domestic credit resulted from higher net claims of the banking sector on the public sector (+Afl. 205.2 million) as well as higher claims of the banking sector on the private sector (+Afl. 161.3 million). The increase in net claims of the banking sector on the public sector was due to a decline in government deposits (-Afl. 205.1 million). The rise in claims of the banking sector on the private sector (see chart 2) resulted from more loans to enterprises (+Afl. 148.6 million), housing mortgages (+Afl. 10.9 million), and consumer credit (+Afl. 1.8 million).

During the first half of 2026, money supply rose by Afl. 964.1 million. This expansion resulted from increases in both net foreign assets (+Afl. 873.7 million) and net domestic assets (+Afl. 90.5 million). The development in the domestic component of the money supply was caused by increases in domestic credit (+Afl. 69.6 million)

¹ Excluding revaluation differences of gold and foreign exchange holdings.

and in non-credit-related balance sheet items (+Afl. 21.0 million). The growth in domestic credit resulted from higher claims of the banking sector on the private sector (+Afl. 301.7 million) and lower net claims of the banking sector on the public sector (-Afl. 232.1 million). The rise in claims of the banking sector on the private sector resulted from more loans to enterprises, housing mortgages, and consumer credit of Afl. 220.6 million, Afl. 41.5 million, and Afl. 37.3 million, respectively. The decrease in net claims of the banking sector on the public sector was due to a rise in government deposits (+Afl. 233.0 million).

Inflation

The consumer price index (CPI) for June 2026 noted a 2.4% rise year-over-year (YOY), compared to a 2.1% increase (YOY) for May 2026 (see chart 3).

Source: Centrale Bank van Aruba

The main contributor to this increase was the “Transport” component. In addition, the components “Food and Non-alcoholic Beverages,” “Miscellaneous Goods and Services,” “Housing,” “Communication,” “Restaurants and Hotels,” and “Health” also noted an uptick. The components “Household Operations” and “Clothing and Footwear” noted a decrease, while the

components “Beverages and Tobacco Products,” “Recreation and Culture,” and “Education” remained unchanged. Furthermore, by excluding the effect of food and energy², the core CPI rose by 1.0% (YOY) (see table 2).

Inflation components	End-month		12-month	
	Jun-25	Jun-26	Jun-25	Jun-26
Food And Non-Alcoholic Beverages	0.1	0.4	0.2	0.2
Beverages And Tobacco Products	0.0	0.0	0.0	0.0
Clothing And Footwear	0.1	-0.1	0.0	-0.1
Housing	0.2	0.2	0.1	0.2
Household Operation	0.4	-0.4	0.1	-0.4
Health	0.1	0.1	0.1	0.0
Transport	-0.4	1.3	0.0	0.1

Government

Total government revenue amounted to Afl. 203.9 million in June 2026, Afl. 3.2 million more than the same month of the previous year.

The increase in government revenue resulted from a rise in nontax revenue (+Afl. 4.0 million) and a decrease in tax revenue (-Afl. 0.6 million).

The decline in tax revenue was mainly driven by decreases in income from profit tax (-Afl. 12.7 million), income tax (-Afl. 3.1 million), and excises on gasoline (-Afl. 2.8 million). In contrast, income from transfer tax (+Afl. 6.0 million) and land tax (+Afl. 4.9 million) grew.

During the first half of 2026, total government revenue amounted to Afl. 1,111.7 million, which is Afl. 103.8 million more than in the first half of the previous year. The increase in government revenue resulted from increases in tax revenue (+Afl. 77.8 million) as well as in nontax revenue (+Afl. 25.9 million).

Tourism

The number of stay-over visitors amounted to 143,343 in June 2026, which was 16,952 visitors (+13.4%) more than in June 2025.

The Latin American market, the North American market, and the European market increased by 9,035 visitors

(+44.9%), 7,037 visitors (+7.1%), and 524 visitors (+11.5%), respectively.

The growth in the North American market resulted from more arrivals from the United States (+7,190 visitors or +7.6%). The rise in the arrivals from the Latin American market was primarily due to more arrivals from Argentina and Colombia, while increase in the European market was mostly driven by more arrivals from the Netherlands.

In the month under review, the total number of nights spent in Aruba, as indicated by the visitors, increased by 13.4% to 912,256 as compared to the corresponding month for the year 2025. The average intended night stays remained unchanged at 6.4 nights in June 2026. The number of cruise visitors amounted to 46,142 in June 2026 and the number of ship calls was 13.

During the first half of 2026, the number of stay-over visitors amounted to 845,501, which was 83,145 visitors (+10.9%) more than during the first half of 2025.

The Latin American market, the North American market, and the European market increased by 44,815 visitors (+43.3%), 34,013 visitors (+5.6%), and 2,666 visitors (+8.2%), respectively.

During the first half of 2026, the total number of nights spent in Aruba, as indicated by the visitors, increased by 578,114 nights (+11.2%) as compared to the first half of 2025.

B) Quasi-money	2,144.0	2,275.7	2,715.2	2,884.3	2,808.4	2,856.4	2,793.5	2,959.4	2,983.8	2,911.3

* The monetary survey consolidates the accounts of the Centrale Bank van Aruba, the commercial banks and the Government related only to the issuance of components of the money supply, i.e., coins and treasury bills. This survey shows the financial relationship between the monetary sector, whose liabilities include the money supply, and other sectors of the economy.

** Gross claims include loans granted as well as government bonds in the hands of the monetary sectors and claims resulting from the issuance of treasury bills, cash certificates, and coins.

*** Revaluation differences of gold and official foreign exchange holdings are excluded in order to approximate the net import of foreign funds by the nonmonetary sectors.

1) The Diversification Index measures the concentration within the tourist market, and thus demonstrates the degree of diversification by tourist origin countries. The higher the index, the higher the level of concentration, meaning less diversification. For further reference on the methodology (which is an application of a Herfindahl-Hirschman index) see the Quarterly Bulletin (2011-I) of the CBA.

2) Is compiled from transactions in foreign currency, traveler's checks, and credit cards, as reported by the local foreign exchange banks (it excludes the contribution of tourism credits gathered from notified foreign bank and intercompany accounts).
