I. Main economic indicators

Monetary developments

In January 2018, money supply expanded by Afl. 43.6 million to Afl. 4,283.5 million, compared to December 2017, resulting from growth in net foreign assets of Afl. 63.3 million, which was partly mitigated by a drop in domestic assets of Afl. 19.7 million (chart 1).

Source: Centrale Bank van Aruba

Money, as a component of broad money, rose by Afl. 23.5 million to Afl. 2,445.2 million, because of an increase in demand deposits of Afl. 30.1 million, which was in part mitigated by a decrease in currency in circulation of Afl. 6.7 million. The growth in demand deposit resulted from increases in deposits denominated in foreign currency and Aruban florin of Afl. 16.9 million and Afl. 13.2 million, respectively. Quasi-money rose by Afl. 20.0 million to Afl. 1,838.3 million, due mainly to increases in savings and time deposits denominated in Aruban florin of Afl. 12.3 million and Afl. 7.9 million, respectively.

The Afl. 63.3 million increase in the net foreign assets of the banking sector resulted from net purchases of foreign exchange of Afl. 254.0 million from the public mainly associated with foreign exchange revenue from tourism activities, transportation services and direct investments. These were partly offset by net sales of foreign exchange of Afl. 190.7 million to the public, mainly related to goods, other services, net transfers to foreign accounts, current transfers and income (Table 1).

Table 1: Change in Net Foreign Assets (NFA) January 2018 (in Afl. millions)	
Net purchases of foreign exchange	254.0
Tourism services	235.3
Transportation services	7.8
Direct investment	7.2

Income	-9.8
Items not yet classified	-8.1
Government services	-4.8
Financial derivatives	-3.2
NET CHANGE IN NFA (minus (-) denotes a decrease)	63.3

Source: Centrale Bank van Aruba

The drop in the domestic component of the money supply resulted from an Afl. 23.3 million decrease in non-credit related balance sheet items. In contrast, domestic credit increased by Afl. 3.6 million. The contraction in the non-credit related balance sheet items was mostly related to decreases in allocated provisions for loan losses, accounts receivable and prepayments and other liabilities, an increase in shareholders' equity and clearing transactions. Domestic credit rose due to an Afl. 10.0 million surge in the net

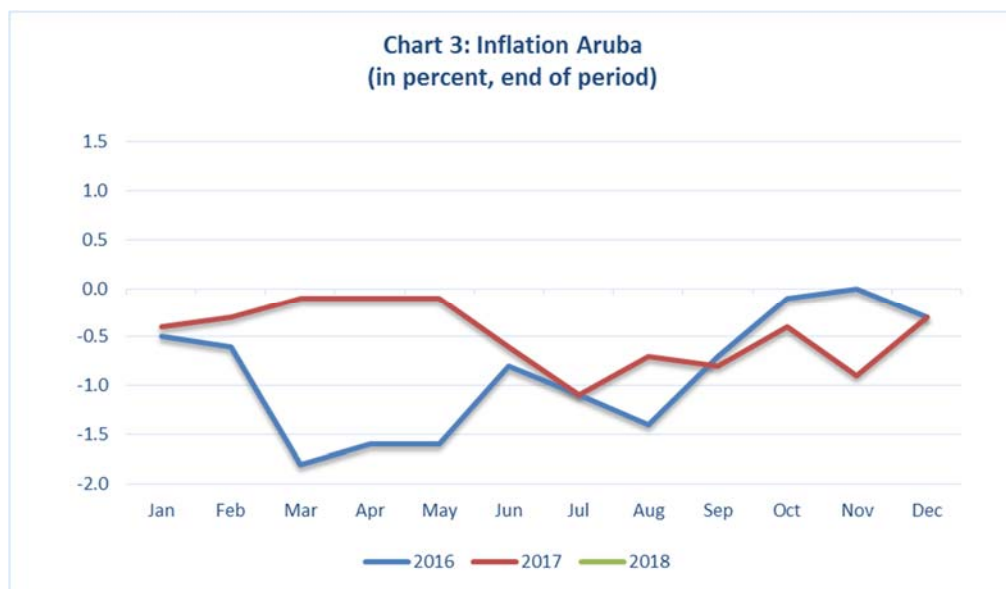

claims of the banking sector on the public sector, which was counterbalanced by a decline in the claims on the private sector of Afl. 6.4 million. The drop in the claims of the banking sector on the private sector was attributed to decreases in consumer credit (-Afl. 7.2 million) and loans to enterprises (-Afl. 1.9 million), and a rise in housing mortgages (+Afl. 2.6 million) (Chart 2). The net claims of the banking sector on the public sector increased mainly because of a decrease in the deposits of the government of Afl. 9.9 million.

Source: Centrale Bank van Aruba

Inflation

The consumer price index (CPI) for January 2018 noted a 1.1 percent increase year-over-year (YOY) (Chart 3).

Source: Central Bureau of Statistics

The main contributor to this rise was the component “Transport”. Other components also noting increases were “Food and Non-Alcoholic Beverages”, “Housing”, “Recreational and Culture”, and “Restaurants and Hotels”. Conversely, the components “Clothing and Footwear” and “Household Operation” registered a

decrease. Excluding the effect of food and energy¹, the core CPI rose by 0.7 percent (YOY) (Table 2).

Table 2: Components of inflation

Inflation components	End-month inflation		12-month average inflation	
	Jan-17	Jan-18	Jan-17	Jan-18
Food And Non-Alcoholic Beverages	0.0	0.2	0.0	0.1

Source: Central Bureau of Statistics

¹ Partly affects the housing and transport components.

The 12-month average inflation rate was -0.4 percent in January 2018, compared to -0.5 percent in December 2017 (Chart 4).

Source: Central Bureau of Statistics

Tourism

The number of stay over visitors amounted to 757,183 in January 2018, which is 2,202 more visitors (+ 2.5 percent) than in January 2017.

This growth was mainly due to the expansion in the North American market of 5,104 visitors (+8.3 percent), which was largely counterbalanced by a reduction in the Latin American market of 3,290 visitors (-18.1 percent) (Chart 5).

Source: Aruba Tourism Authority

The increase in the North American market was largely due to a rise in arrivals from the United States (+4,097 visitors or +7.4 percent). The decline in the Latin American

market was mainly because of a contraction in arrivals from Venezuela (-4,333 visitors or -48.9 percent).

In the month under review, total number of nights spent in Aruba, as indicated by the visitors, grew by 3.1 percent to 757,183, compared to the same month of the previous year. The average intended night stays increased slightly from 8.2 nights in January 2017 to 8.3 nights in January 2018.

The number of cruise visitors increased by 18,564 passengers or 20.7 percent to 108,298 in January 2018, compared to January 2017. The number of ship calls expanded from 44 in January 2017 to 53 in January 2018.

Government

Total government revenue amounted to Afl. 100.4 million in January 2018, Afl. 3.2 million more than the same month of the previous year.

This outcome resulted from a rise of Afl. 7.8 million in tax revenue, which was partially mitigated by a reduction in nontax revenue of Afl. 4.6 million.

The rise in tax revenue was mainly related to increases in import duties (+Afl. 2.8 million), income tax (+Afl. 2.3 million), turnover tax (B.B.O.) (+Afl. 1.9 million), land tax (+Afl. 1.0 million) and transfer tax (+Afl. 1.0 million). These increases were partly offset by decreases in profit tax (-Afl. 1.4 million) and foreign exchange tax (-Afl. 1.0 million).

* The monetary survey consolidates the accounts of the Centrale Bank van Aruba, the commercial banks and the Government related only to the issuance of components of the money supply, i.e., coins and treasury bills. This survey shows the financial relationship between the monetary sector, whose liabilities include the money supply, and other sectors of the economy.

** Gross claims include loans granted as well as government bonds in the hands of the monetary sectors and claims resulting from the issuance of treasury bills, cash certificates, and coins.

*** Revaluation differences of gold and official foreign exchange holdings are excluded in order to approximate the net import of foreign funds by the nonmonetary sectors.

1) The Diversification Index measures the concentration within the tourist market, and thus demonstrates the degree of diversification by tourist origin countries. The higher the index, the higher the level of concentration, meaning less diversification. For further reference on the methodology (which is an application of a Herfindahl-Hirschman index) see the Quarterly Bulletin (2011-I) of the CBA.
