## I. Main economic indicators

### Monetary developments

During the month of August 2014, money supply contracted by Afl. 48.0 million to Afl. 3,352.5 million, resulting from an Afl. 65.4 million drop in the net foreign assets (excluding revaluation differences of gold and foreign exchange holdings), which was partly offset by an Afl. 17.3 million increase in the net domestic assets.

During the month under review, the Afl. 65.4 million contraction in net foreign assets was mainly the result of net transfers to notified foreign accounts of resident companies, which were partially offset by net inflows of direct investment in Aruba. The growth in the domestic component of the money supply was brought about by an increase in domestic credit of Afl. 70.2 million, while the non-credit related balance sheet items showed an Afl. 52.9 million decrease. The latter was attributed to clearing transactions. The rise in domestic credit was caused by increases in the claims of the banking sector on both the public and private sector of, respectively, Afl. 63.1 million and Afl. 7.2 million.

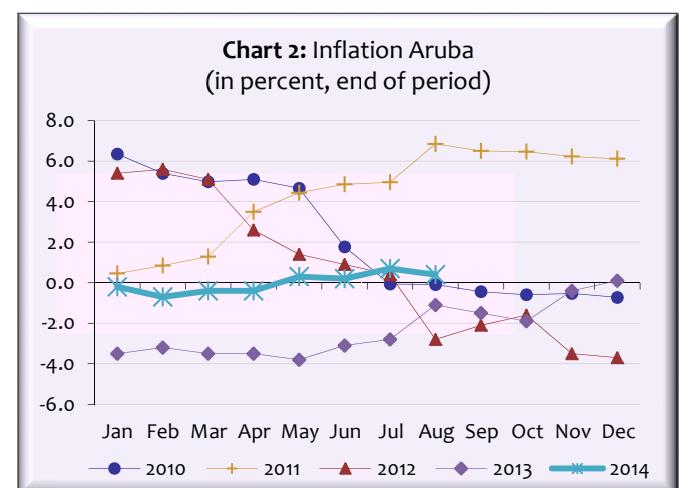

The growth in the net claims of the banking sector on the public sector was mainly caused by decreases in government deposits and development funds of, respectively, Afl. 53.0 million and Afl. 9.9 million. The rise in the claims of the banking sector on the private sector was caused by increases in loans to enterprises, housing mortgages, and consumer credit of respectively, Afl. 5.0 million (+0.4 percent), Afl. 2.1 million (+0.2 percent) (Chart 1), and Afl. 0.6 million (+0.1 percent).

### Inflation

The consumer price index (CPI) for August 2014 registered a 0.4 percent increase, compared to the same month of 2013 (Chart 2). The main contributors to this increase were the components “Transport” and “Food and Non-Alcoholic Beverages”. Excluding the effect of food and energy (which partly affects the housing and transport components), the core CPI grew by 0.4 percent, compared to August 2013 (Table A). The 12-month average inflation rate declined by 0.3 percent in August 2014 (Chart 3). Excluding the energy and food components, the core CPI remained unchanged (Table A).

### Tourism

In August 2014, the number of stay-over visitors totaled 102,048, which is 15.6 percent (+13,759 visitors) higher than in August 2013 (Chart 4). This rise was mainly caused by a 45.0 percent (+12,695 visitors) increase in the number of visitors from Latin America. The expansion in the Latin American market was mostly associated with growths in the number of visitors from Venezuela and Colombia of, respectively, 48.0 percent (+10,543 visitors) and 42.8 percent (+653 visitors). In addition the North American market and the European market registered increases of, respectively, 780 visitors (+1.6 percent) and +407 visitors (5.4 percent).

The total intended number of nights spent in Aruba rose by 9.3 percent to 713,243 while the average intended nights stayed dropped from 7.4 nights in August 2013 to 7.0 nights in August 2014.

The number of cruise visitors grew by 9,566 or 44.6 percent to 31,036 in August 2014, compared to the same month of the previous year. The number of ship calls rose from 9 in August 2013 to 14 in August 2014.

### Government revenue

In August 2014, tax revenue amounted to Afl. 71.9 million, Afl. 5.5 million higher than the same month of the previous year. This rise was largely brought about by increases in receipts from profit tax (Afl. 4.8 million), wage tax (Afl. 1.7 million), taxes on other services (Afl. 1.1 million), and foreign exchange tax (Afl. 1.0 million). These increases were partially offset by a decrease of Afl. 2.4 million in import duties.

## **II. Operations of the CBA**

### *Three-month treasury bills*

- On August 29, 2014, Afl. 45 million in three-month treasury bills were issued at an average price of Afl. 99.71 per Afl. 100 nominal, yielding 1.15 percent on a yearly basis.

- On September 12, 2014, Afl. 20 million in three-month treasury bills were issued at an average price of Afl. 99.72 per Afl. 100 nominal, yielding 1.13 percent on a yearly basis.

| A) Money                       | 1,373.0        | 1,556.1        | 1,821.4        | 1,713.4        | 1,725.6        | 1,712.4        | 1,774.5        |
| B) Quasi-money                 | 1,781.6        | 1,603.9        | 1,588.9        | 1,578.6        | 1,689.7        | 1,666.8        | 1,643.9        |

\* The monetary survey consolidates the accounts of the Centrale Bank van Aruba, the commercial banks and the Government related only to the issuance of components of the money supply, i.e., coins and treasury bills. This survey shows the financial relationship between the monetary sector, whose liabilities include the money supply, and other sectors of the economy.

\*\* Gross claims include loans granted as well as government bonds in the hands of the monetary sectors and claims resulting from the issuance of treasury bills, cash certificates, and coins.

\*\*\* Revaluation differences of gold and official foreign exchange holdings are excluded in order to approximate the net import of foreign funds by the nonmonetary sectors.

1) The Diversification Index measures the concentration within the tourist market, and thus demonstrates the degree of diversification by tourist origin countries. The higher the index, the higher the level of concentration, meaning less diversification. For further reference on the methodology (which is an application of a Herfindahl-Hirschman index) see the Quarterly Bulletin (2011-D) of the CBA.
