## I. Main economic indicators

### Monetary developments

During the month of November 2012, money supply expanded by Afl. 48.1 million to Afl. 3,331.8 million, resulting from rises in both net domestic assets and net foreign assets (excluding revaluation differences of gold and foreign exchange holdings) of, respectively, Afl. 40.3 million and Afl. 7.8 million.

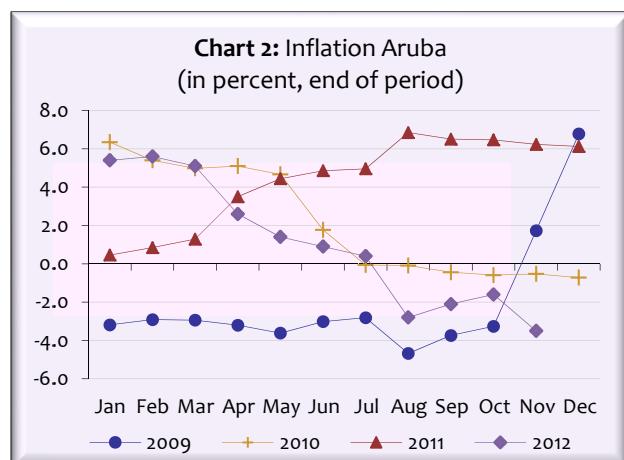

The growth in the net domestic assets was because the Afl. 6.6 million net claim of the public sector on the banking sector recorded at the end of October 2012 turned into an Afl. 55.2 million net liability of the public sector to the banking sector, largely due to a decline of Afl. 56.5 million in government deposits related to the repayment of matured bonds. Non-credit related balance sheet items, on the other hand, decreased by Afl. 28.7 million, caused by clearing transactions.

Furthermore, claims on the private sector picked up by Afl. 7.2 million (+0.3 percent), reflecting increases in commercial loans and housing mortgages of, respectively, Afl. 6.0 million (+0.5 percent) and Afl. 4.5 million (+0.5 percent), while consumer credit dropped by Afl. 3.2 million (-0.6 percent).

### Inflation

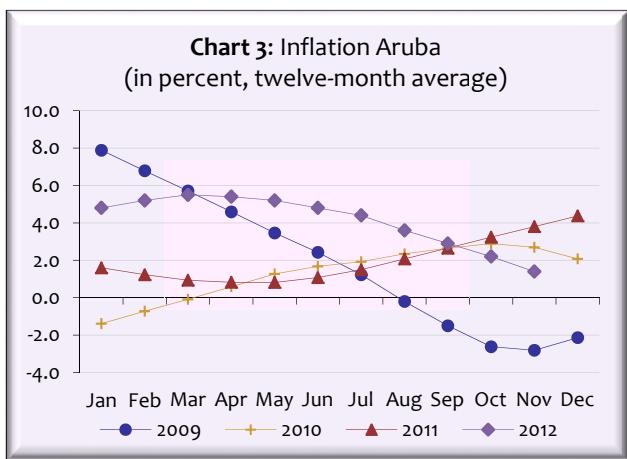

The consumer price index (CPI) for November 2012 registered a 3.5 percent decrease, compared to the same month of 2011 (Chart 2). The main contributors to this drop were housing, clothing & footwear, household operation, and recreation & culture. Excluding the effect of food and energy (which partly affects the housing and transport components), the core CPI showed a 0.3 percent decrease compared to November 2011, brought about mostly by declines in the index categories of women's clothing, household operation, and audio visual equipment (Table A).

The pace of the 12-month average inflation rate fell to 1.4 percent in November 2012, down from 2.2 percent in October 2012 (Chart 3). Excluding the energy and food components, the core CPI increased by 0.2 percent, associated with higher prices of transport components (excluding the energy components gasoline and diesel), housing, and restaurant & hotels (Table A).

**Table A. Components of Inflation**

Inflation components	End-month inflation Nov-11	End-month inflation Nov-12	12-month average inflation Nov-11	12-month average inflation Nov-12

<b>Total</b>	<b>6.2</b>	<b>-3.5</b>	<b>3.8</b>	<b>1.4</b>
<b>Total Excluding Energy &amp; Food</b>	<b>1.5</b>	<b>-0.3</b>	<b>1.0</b>	<b>0.2</b>

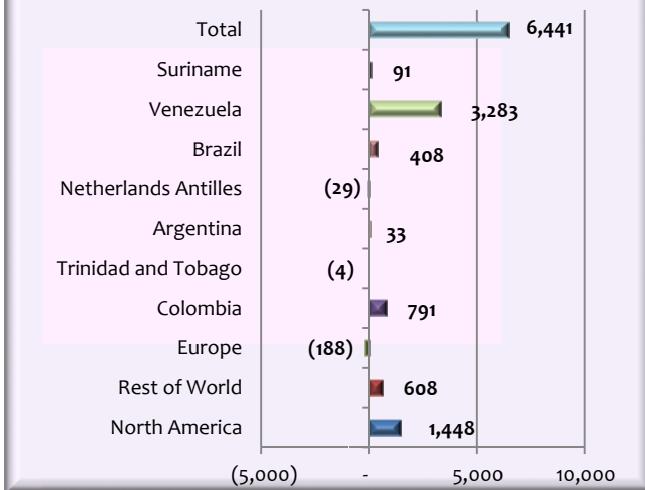

## Tourism

In November 2012, the number of stay-over visitors totaled 73,240, which is 9.9 percent (+6,613 visitors) higher than in November 2011. This growth was caused mainly by increases in the number of visitors from Latin America and North America of, respectively, 35.7 percent (+4,931 visitors) and 3.4 percent (+1,491 visitors). The Latin American market continued to expand, attributed mostly to increases in visitors from Venezuela of 37.2 percent (+3,315 visitors) and Colombia of 71.8 percent (+806 visitors). In the North American market, arrivals from the U.S.A. and Canada grew by, respectively, 2.1 percent (+874 visitors) and 19.9 percent (+617 visitors).

The European market, on the other hand, declined by 117 visitors (-1.9 percent) in November 2012, compared to November 2011. The largest drops were registered in arrivals from Italy (-220 visitors) and the Netherlands (-54 visitors).

**Chart 4: Absolute change in number of visitors by major markets (November 2012 vs. 2011)**

The number of cruise visitors fell by 5,093 or 7.0 percent to 67,998 in the month of November 2012, compared to the same month of the previous year. The number of ship calls declined from 39 to 35 in November 2012 compared to the corresponding month a year earlier.

## Government revenue

In November 2012, registered tax revenue totaled Afl. 72.2 million, a decrease of Afl. 9.0 million or 11.1 percent, compared to the same month of the previous year. This drop was associated mostly with declines in revenue from foreign exchange tax, profit tax, land tax, and transfer tax of, respectively, Afl. 5.4 million, Afl. 4.3 million, Afl. 4.0 million, and Afl. 2.0 million. These declines were partially offset by higher revenue from taxes on income and commodities, and turnover tax (BBO) of, respectively, Afl. 3.0 million, Afl. 2.3 million, and

Afl. 0.7 million. Non-tax receipts recorded a fall of Afl. 5.7 million in November 2012, compared to the same month of last year.

## **II. Operations of the CBA**

On November 30, 2012, Afl. 45 million in three-month treasury bills were issued at an average price of Afl. 99.50 per Afl. 100 nominal, yielding 2.01 percent on a yearly basis. Furthermore, on December 14, 2012, Afl. 20 million in three-month treasury bills were issued at an average price of Afl. 99.50 per Afl. 100 nominal, yielding 2.00 percent on a yearly basis.

\* The monetary survey consolidates the accounts of the Centrale Bank van Aruba, the commercial banks and the Government related only to the issuance of components of the money supply, i.e., coins and treasury bills. This survey shows the financial relationship between the monetary sector, whose liabilities include the money supply, and other sectors of the economy.

\*\* Gross claims include loans granted as well as government bonds in the hands of the monetary sectors and claims resulting from the issuance of treasury bills, cash certificates, and coins.

\*\*\* Revaluation differences of gold and official foreign exchange holdings are excluded in order to approximate the net import of foreign funds by the nonmonetary sectors.

1) The Diversification Index measures the concentration within the tourist market, and thus demonstrates the degree of diversification by tourist origin countries. The higher the index, the higher the level of concentration, meaning less diversification. For further reference on the methodology (which is an application of a Herfindahl-Hirschman index) see the Quarterly Bulletin (2011-I) of the CBA.
