I. Main economic indicators

Monetary developments

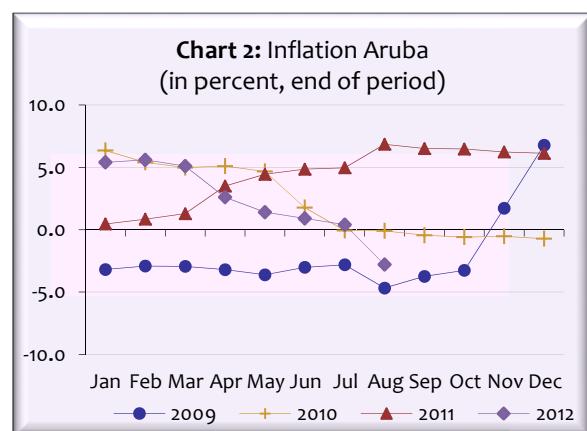

During the month of August 2012, broad money contracted by Afl. 24.3 million to Afl. 3,136.9 million, resulting from an Afl. 33.4 million drop in net foreign assets (excluding revaluation differences of gold and foreign exchange holdings) to Afl. 1,041.8 million. This decrease was partially offset by an Afl. 9.1 million rise in net domestic assets to Afl. 2,095.1 million at the end of August 2012. The decline in net foreign assets was caused by net outflows related to both current and capital transactions. Current transactions resulted in an Afl. 17.2 million net outflow of foreign funds, due mainly to payments for the import of goods and services, and interest payments, which were partially offset by gross tourism receipts. Capital transactions recorded a net outflow of foreign funds of Afl. 16.2 million, attributed mostly to net transfers to foreign accounts of resident companies.

The increase in the domestic component of the money supply was associated with an Afl. 22.7 million growth in domestic credit and an Afl. 13.6 million decline in non-credit related balance sheet items. Domestic credit grew as a result of an Afl. 24.1 million rise in the net liability of the public sector to the banking sector, attributed to decreases in government's deposits and development funds of, respectively, Afl. 17.4 million and Afl. 6.7 million. In contrast, claims of the banking sector on the private sector dropped slightly by Afl. 1.4 million (-0.1 percent), following declines in consumer credit and commercial loans of, respectively, Afl. 4.8 million and Afl. 0.5 million, while housing mortgages expanded by Afl. 4.4 million.

Inflation

The consumer price index (CPI) for August 2012 registered a 2.8 percent decrease, compared to the same month of 2011 (Chart 2). The main contributors to this drop were housing, clothing & footwear, and household operation. Excluding the effect of food and energy (which partly affects the housing and transport components), the core CPI showed a 0.7 percent decrease compared to August 2011, brought about by declines in the index categories of clothing, household operation and recreation and culture (Table A).

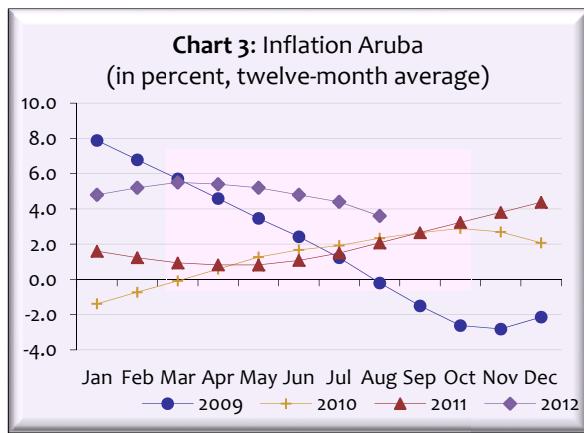

The 12-month average inflation rate reached 3.6 percent in August 2012, down from 4.4 percent in

July 2012 (Chart 3). Excluding the energy and food components, the core CPI increased by 0.7 percent, associated with higher prices of transport components (excluding gasoline and diesel), restaurant and hotels, as well as communication (Table A).

Table A. Components of Inflation

Inflation components	End-month inflation Aug-11	End-month inflation Aug-12	12-month average inflation Aug-11	12-month average inflation Aug-12

Total	6.8	-2.8	2.1	3.6
Total Excluding Energy & Food	2.2	-0.7	0.4	0.7

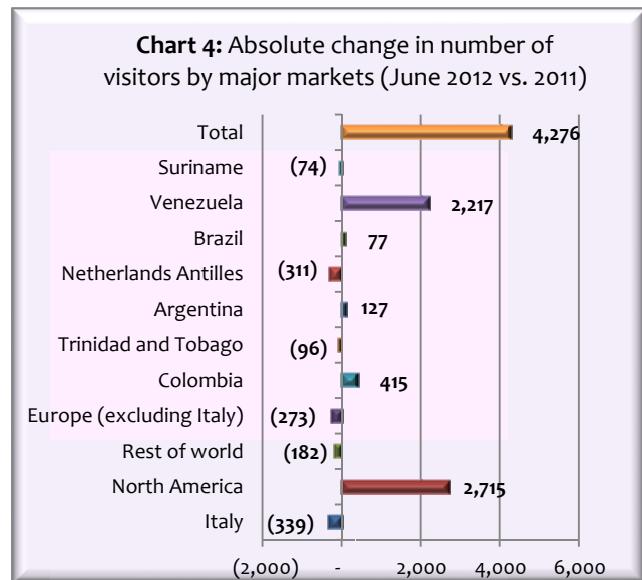

Tourism

The number of stay-over visitors totaled 83,721 in August 2012, 5.4 percent higher than in August 2011. This growth was caused by increases of 6.3 percent (+2,715 visitors) and 9.9 percent (+2,381 visitors) in the number of visitors from North America and Latin America, respectively. In contrast, the number of visitors from the European market fell by 6.9 percent to 8,309. The growth in

the North American market resulted from hikes in arrivals from the United States and Canada of, respectively, 4.3 percent (+1,805 visitors) and 56.3 percent (+910 visitors). The expansion in the Latin American market segment was attributed mostly to an increase in visitors from Venezuela of 13.4 percent (+2,217 visitors). The other Latin American market segments that experienced a growth were Colombia (+415), Argentina (+127) and Brazil (+77), while the number of visitors from Peru and Ecuador decreased by, respectively, 476 and 105.

The fall in the European market resulted mainly from declines in visitors from the United Kingdom and Italy of, respectively, 342 and 339.

The number of cruise visitors surged by 6,244 or 117.6 percent to 11,552 in the month of August 2012 compared to the same month of the previous year. The number of ship calls picked up slightly from 6 to 7 in August 2012 compared to August 2011.

Government revenue

In August 2012, registered tax revenue totaled Afl. 73.9 million, an increase of Afl. 7.4 million or 11.1 percent, compared to the same month of the previous year. This growth was associated mostly with surges in revenue from profit, income and land tax of, respectively, Afl. 7.2 million, Afl. 3.0 million and Afl. 2.4 million. In contrast, revenue from wage tax and gambling licenses fell by, respectively, Afl. 4.2 million and Afl. 2.1 million. Foreign exchange tax and turnover tax (BBO) also noted a slight drop of, respectively, Afl. 0.3 million and Afl. 0.1 million. In addition, non-tax revenue recorded a decline of Afl. 5.2 million in August 2012 compared to the same month of last year.

A) Money	1,396.8	1,541.3	1,373.0	1,556.1	1,599.9	1,575.9	1,606.5
B) Quasi-money	1,593.6	1,622.2	1,781.6	1,603.9	1,604.4	1,598.3	1,596.6

* The monetary survey consolidates the accounts of the Centrale Bank van Aruba, the commercial banks and the Government related only to the issuance of components of the money supply, i.e., coins and treasury bills. This survey shows the financial relationship between the monetary sector, whose liabilities include the money supply, and other sectors of the economy.

** Gross claims include loans granted as well as government bonds in the hands of the monetary sectors and claims resulting from the issuance of treasury bills, cash certificates, and coins.

*** Revaluation differences of gold and official foreign exchange holdings are excluded in order to approximate the net import of foreign funds by the nonmonetary sectors.

1) The Diversification Index measures the concentration within the tourist market, and thus demonstrates the degree of diversification by tourist origin countries. The higher the index, the higher the level of concentration, meaning less diversification. For further reference on the methodology (which is an application of a Herfindahl-Hirschman index) see the Quarterly Bulletin (2011-I) of the CBA.
