No. 293

I. Main economic indicators

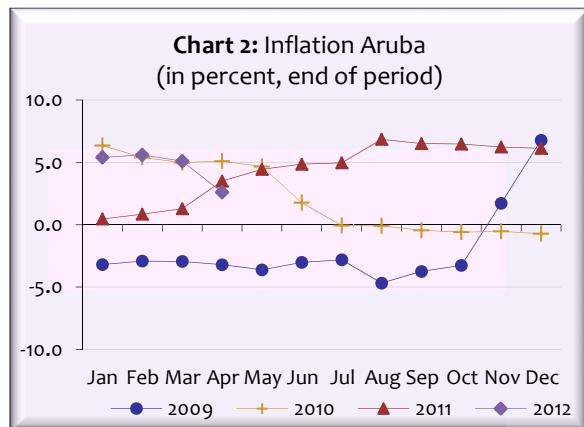

Monetary developments

The money supply at the end of April 2012 was Afl. 3,152.4 million, a decrease of Afl. 15.3 million, due mainly to an Afl. 14.6 million drop in net foreign assets (excluding revaluation differences of gold and foreign exchange holdings) to Afl. 1,207.3 million. In addition, the domestic component of the money supply declined slightly by Afl. 0.6 million, related to an Afl. 3.1 million decrease in the non-credit-related balance sheet items and an increase of Afl. 2.5 million in domestic credit. The growth in domestic credit was caused by an Afl. 7.8 million rise in the claims of the banking sector on the private sector and an Afl. 5.3 million decrease in the net liability of the public sector to the banking sector. The increase in the banking sector's claims on the private sector reflected expansions in commercial loans and housing mortgages of Afl. 8.3 million (+0.7 percent) and Afl. 2.7 million (+0.3 percent), respectively, while consumer credit shrank by Afl. 3.3 million (-0.6 percent) (Chart 1).

Inflation

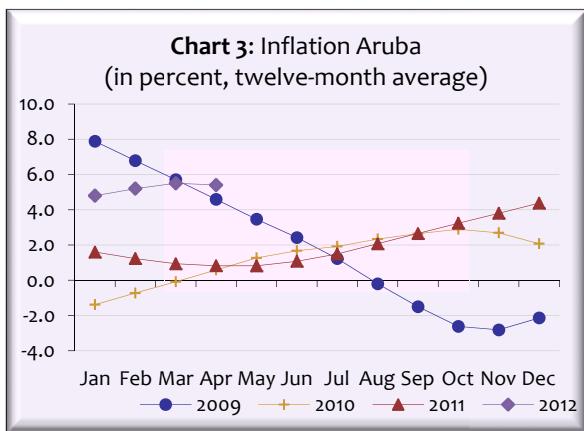

The consumer price index (CPI) for April 2012 registered a 2.6 percent increase, compared to the same month of 2011 (Chart 2). The main contributors to the increase were housing, food items, and transport. Excluding the effect of food and energy (which partly affects the housing and transport components), the resulting core CPI showed a 0.5 percent rise compared to April 2011, brought about by increased prices of transport components excluding gasoline and diesel (i.e., oil changes, greasing, washing), communication (i.e., prepaid telephone cards), and restaurants and hotels (i.e., food and beverage consumption outside the home) (Table A).

The 12-month average inflation rate reached 5.4 percent in April 2012 (Chart 3). The core CPI, thus subtracting the energy and food components from the 12-month average rate, picked up by 1.5 percent, associated with higher prices of transport components (excluding gasoline and diesel), communication, as well as recreation and culture (Table A).

Table A. Components of Inflation

Inflation components	End-month inflation		12-month average inflation	
	APR 2011	APR 2012	APR 2011	APR 2012
Food And Non-Alcoholic Beverages	0.3	0.5	-0.1	0.7

Total	3.5	2.6	0.8	5.4
Total Excluding Energy & Food	0.8	0.5	-0.4	1.5

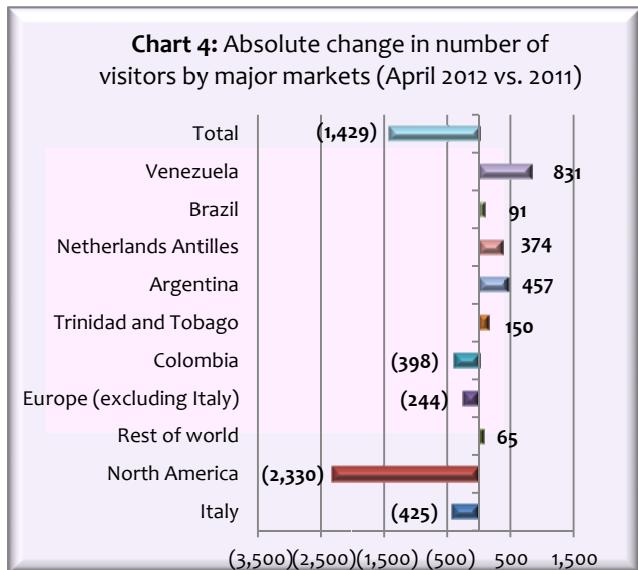

Tourism

The number of stay-over visitors totaled 78,160 in April 2012, 1.8 percent lower than in April 2011. This decline was caused mainly by decreases in the number of visitors from the United States (down by 2,959 or -5.7 percent), Italy (down by 425 or -75.5 percent) and Colombia (down by 398 or -23.9 percent).

In addition, there were 244 (-4.6 percent) less tourist arrivals registered for the rest of Europe. In contrast, in April 2012, the number of visitors increased from Venezuela (up by 831 or +6.9 percent), Argentina (up by 457 or +113.1 percent), and Curaçao and other Dutch Caribbean markets

(up by 374 or +20.6 percent) compared to April 2011 (Chart 4).

The number of cruise visitors grew by 25.8 percent to 69,852 in the month of April 2012 compared to the same month of the previous year. The number of ship calls went up slightly to 33 in April 2012 compared to 30 in April 2011.

Government revenue

Registered tax revenue for the month of April 2012 totaled Afl. 74.5 million, an increase of Afl. 15.4 million (+26.1 percent) compared to the same month of the previous year. This increase was associated mostly with an Afl. 8.7 million (+32.7 percent) surge in revenue from taxes on income and profit, and an increase of Afl. 5.2 million (+28.9 percent) in revenue from taxes on commodities. In addition, receipts from property taxes, foreign exchange tax, and non-tax revenue also went up by Afl. 0.7 million (+50.0 percent), Afl. 0.6 (+16.7 percent), and Afl. 0.5 million (+ 9.8 percent), respectively, while income from the turnover tax (BBO) remained unchanged.

II. Operations of the CBA

Three-month treasury bills

On May 31, 2012, Afl. 45 million in three-month treasury bills were issued at an average price of Afl. 99.50 per Afl. 100 nominal, yielding 2.01 percent on a yearly basis. Furthermore, on June 15, 2012, Afl. 20 million in three-month treasury bills were issued at an average price of Afl. 99.64 per Afl. 100 nominal, yielding 1.43 percent on a yearly basis.

B) Quasi-money	1,593.6	1,622.2	1,781.6	1,603.9	1,745.5	1,732.8	1,691.7	1,598.4

* The monetary survey consolidates the accounts of the Centrale Bank van Aruba, the commercial banks and the Government related only to the issuance of components of the money supply, i.e., coins and treasury bills. This survey shows the financial relationship between the monetary sector, whose liabilities include the money supply, and other sectors of the economy.

** Gross claims include loans granted as well as government bonds in the hands of the monetary sectors and claims resulting from the issuance of treasury bills, cash certificates, and coins.

*** Revaluation differences of gold and official foreign exchange holdings are excluded in order to approximate the net import of foreign funds by the nonmonetary sectors.

1) The Diversification Index measures the concentration within the tourist market, and thus demonstrates the degree of diversification by tourist origin countries. The higher the index, the higher the level of concentration, meaning less diversification. For further reference on the methodology (which is an application of a Herfindahl-Hirschman index) see the Quarterly Bulletin (2011-I) of the CBA.
