8. Government revenue	11
9. Government's position with the monetary system	12
10. Tourism	13
11. Growth in stay-over tourism	14
12. Consumer price index	15

I. Main economic indicators

Monetary developments

In February 2011, money supply grew by Afl. 12.8 million to Afl. 3,163.8 million, resulting from an Afl. 16.0 million net inflow of foreign funds. Despite this inflow, Aruba's net foreign assets (excluding revaluation differences of gold and foreign exchange holdings) were still Afl. 182.0 million lower (-12.0 percent) than the amount recorded in the corresponding month of 2010.

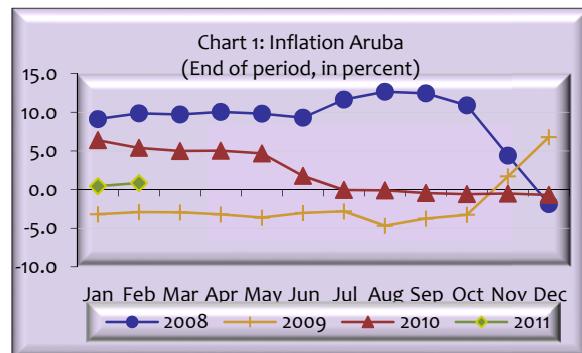

The above-mentioned Afl. 16.0 million net foreign fund inflow was largely the result of a current account surplus, stemming from higher tourism receipts in comparison to import payments for the month under review.

Net domestic assets shrunk by Afl. 3.2 million, associated with a fall in non-credit related balance sheet items of Afl. 23.3 million, due to clearing transactions. Withdrawals from the government deposits (-Afl. 13.7 million) and development funds (-Afl. 2.3 million) had an expansive effect on the net domestic assets.

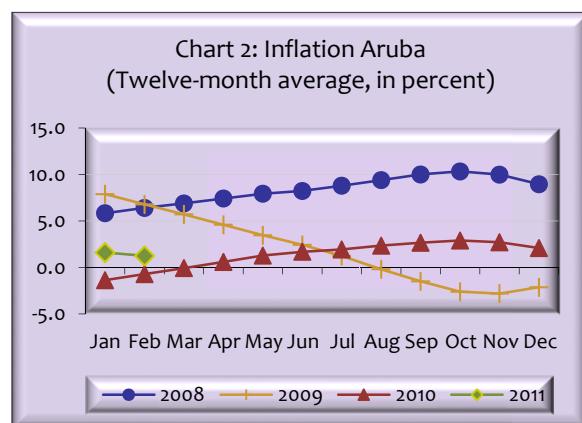

In addition, claims on the private sector increased by Afl. 4.1 million, related to gains in both housing mortgages (+Afl. 1.8 million) and credit to enterprises (+Afl. 2.9 million).

Inflation

The consumer price index (CPI) for February 2011 registered an increase of 0.8 percent, compared to the same month of 2010 (Chart 1). When excluding the effects of the energy component, the CPI showed no change.

The 12-month average inflation rate, an indicator of price movements on the longer term, reached 1.2 percent in February 2011 (Chart 2). When subtracting the energy component from the 12-month average rate, consumer prices reveal a decline of 0.7 percent. The 12-month average inflation rate for Aruba was 0.4 percentage point lower than that of its main trading partner, the United States.

Tourism

Tourism arrivals increased by 1,195 (+1.8 percent) in February 2011. This was in part due to higher numbers of stay-over tourists arriving from Canada (+1,343), Venezuela

Tourism

Tourism arrivals increased by 1,195 (+1.8 percent) in February 2011. This was in part due to higher numbers of stay-over tourists arriving from Canada (+1,343), Venezuela (+422) and the Netherlands (+204). In contrast, there was a fall in the arrivals from the United States (-1,505) and Brazil (-532).

The number of cruise passengers rose by 10,792 (+13.6 percent) to a total of 90,384 during February 2011, compared to the same month of 2010. The number of ship calls grew by 13.6 percent or a total of 50 calls for the month under review.

Government revenue

In February 2011, the government tax revenue expanded by Afl. 7.0 million (+10.6 percent) to Afl. 72.8 million. Contributing factors were higher receipts from the wage tax (+Afl. 6.0 million) and import duties (+Afl. 3.2 million). On the other hand, revenue from the income tax fell by Afl. 1.1 million. Furthermore, the hotel room tax was transformed into a tourist levy and is therefore not included anymore in the government revenue table (see Box).

The proceeds of the tourist levy in February 2011 were Afl. 6.0 million. This is significantly above the hotel room tax receipts of February 2010 (Afl. 3.9 million), a development explained by the increase in rates from 6.0 percent to 9.5 percent.

II. Operations of the CBA

Treasury bills

On March 11, 2011, Afl. 40.0 million in three-month treasury bills was issued at an average price of Afl. 99.8396 per Afl. 100 nominal, yielding 0.63 percent on a yearly basis.

Cash loan certificates

On April 01, 2011, new government six-month cash loan certificates were issued for a total amount of Afl. 8.0 million. The average price and yield for this issue were, respectively, Afl. 99.6667 per Afl. 100 nominal and 0.69 percent per annum.

Box: From a hotel room tax to a tourist levy

As of the beginning of 2011, the Aruba Tourism Authority became a *sui generis* body. Its main revenue comes from a tourist levy, which used to be the hotel room tax in CBA's statistical annex for the monthly bulletin (see table 8). Due to the new status of the Aruba Tourism Authority, the tourist levy will no longer be included in the government revenue. This explains why the hotel room tax is zero in February 2011. The tourist levy is collected by the tax collector and it is therefore possible to continue to monitor the proceeds.

TABLE I: MONETARY SURVEY*

	1,419.3	1,593.6	1,622.2	1,781.6	1,622.2	1,604.7	1,603.8	1,781.6	1,750.1	1,745.5		

* The monetary survey consolidates the accounts of the Centrale Bank van Aruba, the commercial banks and the Government related only to the issuance of components of the money supply, i.e., coins and treasury bills. This survey shows the financial relationship between the monetary sector, whose liabilities include the money supply, and other sectors of the economy.

** Gross claims include loans granted as well as government bonds in the hands of the monetary sectors and claims resulting from the issuance of treasury bills, cash certificates, and coins.

*** Revaluation differences of gold and official foreign exchange holdings are excluded in order to approximate the net import of foreign funds by the nonmonetary sectors.
