

Business Perception Survey

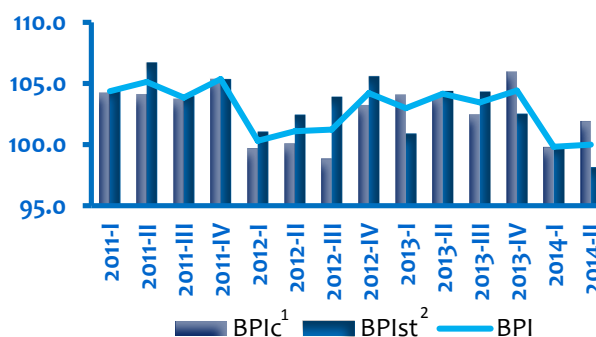

Results of the Quarter 2 - 2014 Survey | Vol. 12.2 | 23 October 2014

Overview

- Responses to the second quarter's survey indicate that the sentiment on current economic conditions turned positive, while the short-term economic index became more pessimistic. Although firms surveyed reported an upturn in sales and employment activities, less companies operated with a profit.
- Firms reported a slight upturn in investment activities in the quarter under review, whereas intentions to invest in the short-term future continues to move downwards. Companies anticipate a slight drop in the financing rates offered by the commercial banks.
- Pricing conditions are expected to rise, as inflation is expected to increase.

The drops were noted in the sectors of utilities, transport, wholesale and retail trade, the financial intermediation, and health, other community and personal service activities.

Chart 1: Business Perception Index

Source: CBA

The overall Business Perception Index (BPI), comprising the current and short-term future perceptions, moved up to 100.0, up from 99.8 in the first quarter of 2014 (Chart 1, Annexes 1 to 5).

As for the medium-term economic expectations, the percentage of respondents perceiving that there will be a positive economic growth of more than one percent over the next twelve months declined to 64.5 percent during the second quarter of 2014, down from 81.2 percent in the first quarter of 2014. The majority of the respondents expected that the economic growth will hover between 1 and 5 percent over the next twelve months.

Economic Activity

During the second quarter of 2014, the current economic condition index rose to 101.9, up from 99.8 in the first quarter of 2014, reflecting a slight upturn in confidence among survey participants. The main contributory sectors to this rise were financial intermediation, construction, and hotels and restaurants.

On the other hand, the short-term future economic condition observed a slight decline of 1.6 percentage points, as the corresponding index moved to 98.2, down from 99.8 in the first quarter of 2014.

²BPIS: short-term Business Perception Index

Sales and Profitability

During the second quarter of 2014, about 54.9 percent of the respondents reported an “increase” in sales, compared to 48.4 percent during the first quarter of 2014.

Of the remaining respondents, 22.7 percent reported a “decrease” in sales, while 22.6 percent reported “no change” in sales. Most sectors noted upturns in sales, with the exception of the utilities sector (Chart 2, Annex 6).

Source: CBA

Regarding profitability, respondents indicated a drop of 8.4 percentage points during the second quarter of 2014, as 66.7 percent of the respondents reported to be profitable, compared to 75.0 percent in the first quarter of 2014 (Annex 8).

Investment and Financing Activity

In the second quarter of 2014, current investment activities showed some acceleration, as the percentage of respondents reporting “improvement” moved upward by 9.4 percentage points to 31.3 percent. The latter was partially supported by a 3.1 percent percentage points drop in the category “worsening” to 18.8 percent, compared to the previous quarter (Annex 8). Respondents indicated a drop in investment in the short-term future, as the percentage of respondents perceiving a fall in investment during the six months following the second quarter of 2014 rose by 10.4 percentage points, while those expecting an “improvement” fell by 5.4 percentage points to 29.0 percent.

For the next 12 months following the second quarter of 2014, 81.3 percent of the respondents indicated that they have investment plans, of which 46.9 percent reported investments below Afl. 1 million, 21.9 percent between Afl. 1 and Afl. 5 million, and 12.5 percent above Afl. 5 million. As a consequence, the level of intended investments over the next 12 months grew by 3.2 percentage points to 96.8 percent in the second quarter of 2014, compared to the first quarter of 2014 (Annex 7).

For the next 12 months following the second quarter of 2014, more respondents (+6.5 percent) expected financing rates of below 8 percent (Annex 7).

Employment

About 34 percent of the firms surveyed reported increases in their staff. Upturns in employment were observed in most sectors, with the exception of the utilities, manufacturing, and real estate sectors (Chart 3, Annexes 6 and 8).

Source: CBA

Inflation and Pricing

During the 12 months following the second quarter of 2014, 158.6 percent of the respondents presumed an inflation of higher than 3 percent. Many respondents (40.6 percent) anticipate an inflation rate between 1 and 2 percent (Chart 4). An increasing number of respondents foresaw price increases in the 12 months following the second quarter of 2014 (Annex 7). The

latter is consistent with the increased expectation that inflation will rise above 3 percent.
