CMB/1.13/INT/310

Subject: FATF statements dated June 24, 2011 / FATF/2011-2

Dear Managements,

As you know, on June 1, 2011 the State Ordinance for the Prevention and Combating of Money Laundering and Terrorist Financing (*Landsverordening voorkoming en bestrijding witwassen en terrorismefinanciering*, AB 2011, no. 28) (AML/CFT State Ordinance) entered into force, thereby replacing the State Ordinance on the Identification when Rendering Services (AB 1995 no. 86) and the State Ordinance on the Reporting obligation of Unusual Transactions (AB 1996 no. 85).

In connection with the AML/CFT State Ordinance the CBA issued a Handbook for the prevention and detection of money laundering and combating the financing of terrorism for financial and trust service providers regulated by the CBA (AML/CFT Handbook).

The standards set in the AML/CFT State Ordinance and AML/CFT Handbook match the international standards issued by the Financial Action Task Force on Money Laundering (FATF).

With due regard to the requirements set out in the AML/CFT State Ordinance and the regulatory requirements set out in the AML/CFT Handbook, both are set out below, the Centrale Bank van Aruba (CBA) urges all supervised financial and trust service providers to take duly notice of the information contained in this letter and the required follow-up actions that need to be taken.

Pursuant to Article 11 of the AML/CFT State Ordinance, financial and trust service providers must perform enhanced customer due diligence, if and when a business relationship or a transaction by its nature entails a higher risk of money laundering or terrorist financing. The enhanced customer due diligence shall be carried out both prior to the business relation or the transaction, as during the business relationship in any case with natural persons, legal persons, trusts and comparable entities that originate from countries or jurisdictions which do not or insufficiently apply the internationally accepted standards for the prevention and combating of money laundering and terrorist financing.

Pursuant to Article 13, paragraph 1, subsection a, of the AML/CFT State Ordinance, financial and trust service providers must pay special attention to business relationships and transactions with natural persons, legal persons, trusts and comparable entities originating from countries or jurisdictions that do not or insufficiently, comply with the internationally accepted AML/CFT standards.

According to Article 13, paragraph 2, of the AML/CFT State Ordinance if a financial or trust service provider can reasonably suspect that a transaction with a natural person, legal person, trust or a comparable entity originating from a country or jurisdiction as meant in the first paragraph, does not have an apparent economic or legal purpose, it shall investigate the background and the

purpose of this transaction and record its findings in writing. These findings must be kept for at least ten years pursuant to paragraph 3 of Article 13 of the AML/CFT State Ordinance.

Article 13 of the AML/CFT State Ordinance is related to the FATF Recommendation 21 which states:
"Financial institutions should give special attention to business relationships and transactions with persons, including companies and financial institutions, from countries which do not or insufficiently apply the FATF Recommendations. Whenever these transactions have no apparent economic or visible lawful purpose, their background and purpose should, as far as possible, be examined, the findings established in writing, and be available to help competent authorities. Where such a country continues not to apply or insufficiently applies the FATF Recommendations, countries should be able to apply appropriate countermeasures".

Furthermore, pursuant to section 3.12.2, subsection 148, of the AML/CFT Handbook, it is a regulatory requirement that service providers must treat countries and jurisdictions listed in the FATF statements (circulated by the CBA), which highlight jurisdictions which do not or insufficiently, apply the FATF Recommendations or which are the subject of international countermeasures, as countries and jurisdictions that do not or insufficiently apply the internationally accepted AML/CFT standards.

Pursuant to section 5.2, subsection 13, of the AML/CFT Handbook, it is a regulatory requirement that a financial and trust service provider must, as part of its on-going customer due diligence (CDD) procedures, establish appropriate customer activity and transaction monitoring procedures that scrutinize the activity and transactions of its customers. The monitoring procedures must include those which provide for the identification and scrutiny of business relationships and transactions connected with jurisdictions which do not or insufficiently comply with the international AML/CFT standards, including but not limited to the FATF Recommendations.

Pursuant to chapter 8, paragraph 8.5 subsection 21 of the AML/CFT Handbook, it is a regulatory requirement that a financial and trust service provider must keep adequate and orderly records containing the findings of reviews of activity and transactions connected with jurisdictions which do not, or insufficiently, apply the FATF Recommendations for a period of at least ten years from the date the business relationship ends, or, if in relation to an occasional transaction, for at least ten years from the date that the transaction was completed.

Last year and lastly by letter of April 15, 2011 (CMB/lcw/1.13/INT/104) the CBA sent you similar letters regarding previous FATF Public Statements and FATF documents titled "Improving Global AML/CFT Compliance: On-going Process", also requiring you to take certain follow-up actions (these letters can also be found on the CBA's website under "Financial Sanctions"). The purpose of this letter is to draw your urgent attention to the FATF Public Statement dated June 24, 2011 (enclosure 1) and the FATF document of June 24, 2011 titled "Improving Global AML/CFT Compliance: On-going Process" (enclosure 2).

It is important to take good notice of the category change applicable to some countries when comparing the FATF Statements of February 25, 2011 with the FATF Statements of June 24, 2011.

Also note that a new category has been added to the FATF Public Statement of June 24, 2011 consisting of jurisdictions with strategic AML/CFT deficiencies that have not made sufficient progress in addressing the deficiencies or have not committed to an action plan to address the deficiencies. This new category comprises of the following countries:

- Cuba
- Bolivia
- Ethiopia
- Kenya
- Myanmar
- Sri Lanka
- Syria
- Turkey

With regard to the FATF document of June 24, 2011 titled "Improving Global AML/CFT Compliance: On-going Process", the following countries have been added:

- Argentina
- Brunei Darussalam
- Cambodia
- Mongolia
- Namibia
- Nicaragua
- Tajikistan
- Zimbabwe

Please note that **Greece** is no longer on mentioned FATF document due to the fact that Greece has met its commitments in its Action Plan regarding the strategic AML/CFT deficiencies that FATF had identified in February 2010 and therefore is no longer subject to FATF's monitoring process under its on-going global AML/CFT compliance process.

The FATF Public Statement and the FATF Document of June 24, 2011 relate to FATF Recommendation 21 and articles 11 and 13 of the AML/CFT State Ordinance in that they identify countries that fall into the following three categories:

A. FATF Public Statement

Category One
Into this category fall **Iran** and the **Democratic People's Republic of Korea (DPRK)**. The FATF calls[1] on members and urges all jurisdictions to advise their financial institutions to give special attention to business relationships and transactions with Iran and DPRK, including Iranian and DPRK companies and financial institutions. In addition to enhanced scrutiny, the FATF calls on its members and urges all jurisdictions to apply effective counter-measures to protect their financial sectors from money laundering and financing of terrorism (ML/FT) risks emanating from Iran and DPRK. FATF also urges jurisdictions to protect against correspondent relationships being used to bypass or evade counter-measures and risk mitigation practices, and to take into account ML/FT risks when considering requests by Iranian and DPRK financial institutions to open branches and subsidiaries in their jurisdiction.

Furthermore, with regard to Iran, the FATF will consider calling on its members and urging all jurisdictions to strengthen counter-measures in October 2011 if Iran fails to take concrete steps to improve its AML/CFT regime.

[1] Please note that the FATF reaffirms its prior call on its members and urges all jurisdictions to apply effective counter-measures to protect their financial sector from ML/TF risks emanating from Iran and DPRK.

Category Two
Into this category fall **Bolivia, Cuba, Ethiopia, Kenya, Myanmar, Sri Lanka, Syria and Turkey.** The FATF calls on its members to consider the risks arising from these jurisdictions, given they have not made sufficient progress in addressing the deficiencies or have not committed to an action plan developed with the FATF to address key strategic deficiencies in their compliance with the FATF 40+9 Recommendations.

Please note that with respect to Cuba (compared to the other countries in category two) the FATF considers that Cuba has not committed to the AML/CFT international standards, nor has it constructively engaged with the FATF.

B. FATF Document Improving Global AML/CFT Compliance: On-going Process

Category Three
Into this category fall **Angola, Antigua and Barbuda, Argentina, Bangladesh, Brunei Darussalam, Cambodia, Ecuador, Ghana, Honduras, Indonesia, Mongolia, Morocco, Namibia, Nepal, Nicaragua, Nigeria, Pakistan, Paraguay, Philippines, São Tomé and Príncipe, Sudan, Tajikistan, Tanzania, Thailand, Turkmenistan, Trinidad and Tobago, Ukraine, Venezuela, Vietnam, Yemen, and Zimbabwe.**

The document outlines the specific areas of weaknesses and requests member jurisdictions consider the information in the document.

The purpose of this letter is to ensure that senior management of the regulated entities is informed of these important issues and to request that it emphasizes the importance of this communication to its compliance officer and inform its management team of the risks associated with business involving these various jurisdictions.

In addition to this important awareness raising, the CBA requires that regulated entities take the following specific actions with regard to the three categories of FATF listed countries:

Category One Action – the CBA requires the financial and trust service providers to:

a) Conduct review of their client base on an ongoing basis to identify relationships or transactions with any connection to the Category One countries.
b) Report such relationships or transactions to the CBA as soon as identified.
c) Any relationship or transaction found must be rated ultra high risk and may only be continued if the regulated entity is satisfied it can monitor and mitigate the risks associated with such business. If the regulated entity is not satisfied the relationship must be exited.
d) Document its risk assessment and monitoring/mitigation strategy and have this document available should the CBA wish to evaluate it.
e) Record the progress of compliance with this action (or otherwise) in the board minutes.

All regulated entities are required to strictly comply with aforementioned instructions. The CBA will verify during the supervisory examinations whether this is done. Note in this respect that non-compliance will be treated very seriously.

Category Two Action – the CBA requires financial and trust service providers to:

a) Review their client base to identify relationships or transactions with any connection to a Category Two country by September 1, 2011.

b) Any relationship or transaction found must be rated at least high risk, taking this new or other information held into account.
c) Document its risk assessment and monitoring/mitigation strategy and have the document available should the CBA wish to evaluate it.
d) Record the progress of compliance with this action (or otherwise) in the board minutes.

DEADLINE: Please conclude the review of your client base by September 1, 2011. It is **not** necessary to send the results of your findings to the CBA. However, supervisory examinations are likely to check that the work has been carried out within the stipulated time-frame. Non-compliance will be treated seriously.

Category Three Action – the CBA requires financial and trust service providers to:

a) Review their client base on an ongoing basis to identify relationships or transactions with any connection to the Category Three countries by September 30, 2011.
b) Re-evaluate its risk assessment of the relationship taking this new and any other information held into account.
c) Document its risk assessment and monitoring/mitigation strategy and have the document available should the CBA wish to evaluate it.
d) Record the progress of compliance with this action (or otherwise) in the board minutes.

DEADLINE: Please conclude the review of your client base by September 30, 2011. It is **not** necessary to send the results of your findings to the CBA. However, supervisory examinations are likely to check that the work has been carried out within the stipulated time-frame. Non-compliance will be treated seriously.

Regulated entities will obviously need to conduct enhanced due diligence where customers are rated ultra or high risk. Entities should also bear in mind that several of the listed jurisdictions are subject to sanctions measures, such as EU and UN Sanctions. Finally, of course, entities should consider their overall obligations to report unusual transactions to the MOT.

Finally, as also mentioned in the previous letters of the CBA, note that these letters relating to money laundering and terrorist financing matters, will be numbered sequentially and also placed in the designated area "Financial Sanctions" on the CBA's website www.cbaruba.org.

Sincerely yours,

Centrale Bank van Aruba

24 June 2011 - As part of its on-going review of compliance with the AML/CFT standards, the FATF has to date identified the following jurisdictions which have strategic AML/CFT deficiencies for which they have developed an action plan with the FATF. While the situations differ among each jurisdiction, each jurisdiction has provided a written high-level political commitment to address the identified deficiencies. The FATF welcomes these commitments.

A large number of jurisdictions have not yet been reviewed by the FATF. The FATF continues to identify additional jurisdictions, on an on-going basis, that pose a risk to the international financial system. The FATF has additionally begun initial reviews of a number of other jurisdictions as part of this process and will present its findings later this year.
