- 10. Tourism 19
- 11. Growth in stay-over tourism 20
- 12. Consumer price index 21

## I. Main economic indicators

### Monetary developments

In October 2020, money supply increased by Afl. 33.6 million to Afl. 4,678.2 million, compared to September 2020, resulting from a rise in the net domestic assets (+Afl. 57.5 million) and a decrease in the net foreign<sup>1</sup> assets (-Afl. 23.9 million) (Chart 1).

Source: Centrale Bank van Aruba

<sup>1</sup> Excluding revaluation differences of gold and foreign exchange holdings.

Money, as a component of broad money, increased by Afl. 96.6 million to Afl. 2,670.9 million, resulting from growth in both demand deposits (+Afl. 92.1 million) and money in circulation (+Afl. 4.5 million). The rise in demand deposits resulted from an expansion in the deposits denominated in Aruban florin (+Afl. 115.9 million) and a decrease in the deposits denominated in foreign currency (-Afl. 23.8 million). Quasi-money declined by Afl. 62.9 million to Afl. 2,007.3 million, predominantly caused by a reduction in time deposits denominated in Aruban florin (-Afl. 53.8 million).

The increase in the domestic component of money supply was caused by a surge in domestic credit (Afl. 58.7 million). In contrast, the non-credit related balance sheet items decreased slightly (-Afl. 1.2 million). The rise in domestic credit was attributed to an expansion in the net claims of the banking sector on the public sector (+Afl. 84.8 million) and a contraction in the claims of the banking sector on the private sector (-Afl. 26.1 million). The growth in the net claims of the banking sector on the public sector was caused by decreases in both government deposits (-Afl. 133.7 million) and gross claims (-Afl. 48.8 million). The decline in the claims of the banking sector on the private sector (see Chart 2: Credit components) was the result of lower loans to enterprises (-Afl. 22.8 million) and consumer credit (-Afl. 9.5 million), and an increase in housing mortgages (+Afl. 6.2 million) during October.

Source: Centrale Bank van Aruba

In October 2020, net foreign assets of the banking sector decreased, due to net sales of foreign exchange of Afl. 169.7 million to the public, mainly associated with payments for goods imports, other services, and other investment. These were largely offset by net purchases of foreign exchange of Afl. 145.8 million from the public, mostly related to foreign exchange revenue from tourism exports, portfolio investment, and net transfer from foreign accounts. (Table 1).

Table 1. Change in Net Foreign Assets (NFA) October 2020 (in Afl. million)	
Net purchases of foreign exchange	145.8
Tourism services	47.6
Portfolio investment	52.5
Net transfers from foreign accounts	37.2
Direct investment	6.2
Transportation services	1.3
Government services	0.9
Capital account transactions	0.1
Net sales of foreign exchange	-169.7
Goods	-120.7
Other services	-27.7
Other Investment	-14.7
Secondary Income	-4.6
Primary Income	-0.9
Financial derivatives	-0.9
Items not yet classified	-0.1
NET CHANGE IN NFA (minus (-) denotes a decrease)	-23.9

## Inflation

The consumer price index (CPI) for October 2020 noted a 2.8 percent decrease year-over-year (YOY) compared to a 2.3 percent decrease (YOY) for September 2020 (Chart 3).

Source: Centrale Bureau of Statistics

The main contributors to this decrease were "Transport", "Household Operation", and "Housing" components. In addition, the "Recreation and Culture", "Food and Non-Alcoholic Beverages", "Clothing and Footwear", and "Miscellaneous Goods and Services" components also noted decreases. The component "Restaurants and Hotels" noted an increase, while the other components remained unchanged. Furthermore, by excluding the effect of food and energy<sup>2</sup>, the core CPI also declined by 1.2 percent (YOY) (Table 2).

<sup>2</sup> Partly affects the housing and transport components.

Table 2: COMPONENTS OF INFLATION				
Inflation components	End-month inflation		12-month average inflation	
	Oct-19	Oct-20	Oct-19	Oct-20
Food And Non-Alcoholic Beverages	0.9	-0.2	1.1	0.1
Beverages And Tobacco Products	0.1	0.0	0.1	0.0
Clothing & Footwear	0.1	-0.2	0.1	-0.1

Total Excluding Energy & Food	3.4	-1.2	2.7	0.7

Source: Centrale Bureau of Statistics

The 12-month average inflation rate was -0.2 percent in October 2020, compared to 0.4 percent in September 2020 (Chart 4).

Source: Centrale Bureau of Statistics

## Government

Total government revenue amounted to Afl. 81.8 million in October 2020, Afl. 13.7 million less than the same month of the previous year.

The decline in government revenue resulted from decreases in tax revenue (-Afl. 11.3 million) and non-tax revenue (-Afl. 2.5 million).

The reduction in tax revenue was mainly driven by decreases in income from wage tax (-Afl. 9.2 million), import duties (-Afl. 6.4 million), and turnover tax (-Afl. 5.3 million). In contrast, income from profit tax increased by Afl. 15.1 million.

## Tourism

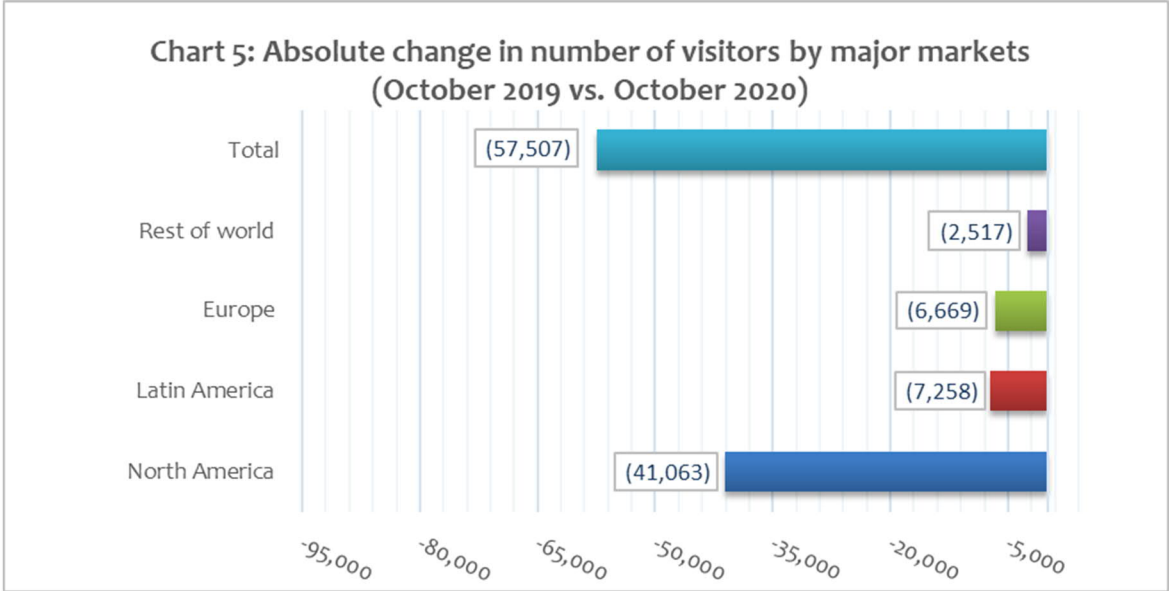

The number of stay over visitors amounted to 21,882 in October 2020, which is 57,507 less visitors (-72.4 percent) than in October 2019.

This decline was due to a reduction in all the markets. The North American market, the Latin American market and the European market decreased by of 41,063 visitors (-66.8 percent), 7,258 visitors (-99.7 percent), and 6,669 visitors (-86.5 percent), respectively.

The reduction in the North American market resulted primarily from less arrivals from the United States (-38,106 visitors or -65.2 percent). The decrease in the arrivals from the Latin American market was primarily due to less arrivals from Colombia.

In the month under review, total number of nights spent in Aruba, as indicated by the visitors, fell by 70.2 percent to 171,461 compared to the same month of the previous year. The average intended night stays increased from 7.2 nights in October 2019 to 7.8 nights in October 2020.

Please note that no cruise visitors were welcomed during the month under review.

\* The monetary survey consolidates the accounts of the Centrale Bank van Aruba, the commercial banks and the Government related only to the issuance of components of the money supply, i.e., coins and treasury bills. This survey shows the financial relationship between the monetary sector, whose liabilities include the money supply, and other sectors of the economy.

\*\* Gross claims include loans granted as well as government bonds in the hands of the monetary sectors and claims resulting from the issuance of treasury bills, cash certificates, and coins.

\*\*\* Revaluation differences of gold and official foreign exchange holdings are excluded in order to approximate the net import of foreign funds by the nonmonetary sectors.

1) The Diversification Index measures the concentration within the tourist market, and thus demonstrates the degree of diversification by tourist origin countries. The higher the index, the higher the level of concentration, meaning less diversification. For further reference on the methodology (which is an application of a Herfindahl-Hirschman index) see the Quarterly Bulletin (2011-I) of the CBA.
