- 7. Commercial banks' consolidated summary account 16
- 8. Government Revenue 17
- 9. Government's position with the monetary system 18
- 10. Tourism 19
- 11. Growth in stay-over tourism 20
- 12. Consumer price index 21

## I. Main economic indicators

## Monetary developments

In August 2020, money supply decreased by Afl. 19.4 million to Afl. 4,732.4 million, compared to July 2020, resulting from a decline in the net domestic assets (-Afl. 108.8 million) and an increase in the net foreign<sup>1</sup> assets (+Afl. 89.5 million) (Chart 1).

Source: Centrale Bank van Aruba

<sup>&</sup>lt;sup>1</sup> Excluding revaluation differences of gold and foreign exchange holdings.

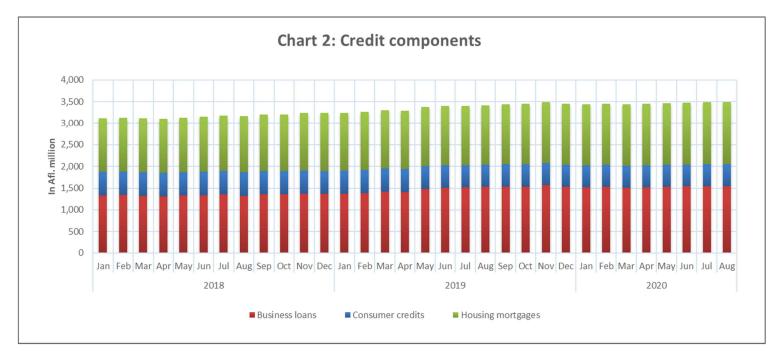

Money, as a component of broad money, declined by Afl. 87.7 million to Afl. 2,656.4 million, resulting from a decrease in demand deposits (-Afl. 88.4 million) and an increase in money in circulation (+Afl. 0.7 million). The reduction in demand deposits resulted from decreases in both the deposits denominated in Aruban florin (-Afl. 83.0 million) and in deposits denominated in foreign currency (-Afl. 5.4 million). Quasi-money increased by Afl. 68.4 million to Afl. 2,076.1 million, mainly due to a growth in time deposits denominated in Aruban florin (+Afl. 49.7 million), savings deposits denominated in Aruban florin (+Afl. 8.2 million), and treasury bills held by the private sector (+Afl. 9.4 million).

In August 2020, net foreign assets of the banking sector increased due to net purchases of foreign exchange of Afl. 285.1 million from the public, mainly associated with other investment, foreign exchange revenue from tourism exports, and net transfer from foreign accounts. These were partly offset by net sales of foreign exchange of Afl. 195.6 million to the public, mostly related to payments for goods imports, portfolio investment, and other services. (Table 1).

Table 1. Change in Net Foreign Assets (NFA) August 20	20
(in Afl. million)	
Net purchases of foreign exchange	285.1
Other investment	212.2
Tourism services	41.1
Net transfers from foreign accounts	20.4
Direct investment	6.2
Capital account transactions	2.7

Net sales of foreign exchange	-195.6
Goods	-89.6
Portfolio investment	-78.9
Other services	-17.8
Items not yet classified	-4.6
Secondary Income	-3.1
Primary Income	-0.9
Financial derivatives	-0.7
NET CHANGE IN NFA (minus (-) denotes a decrease)	89.5

Source: Centrale Bank van Aruba

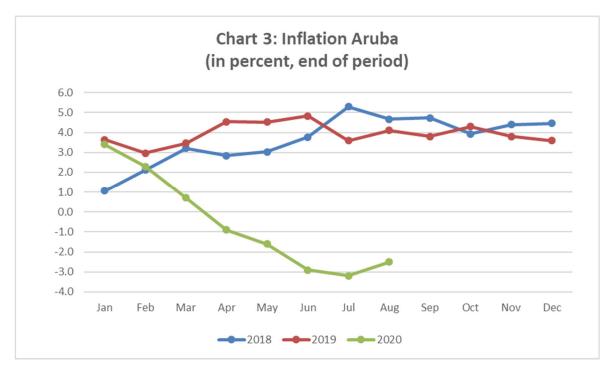

The decline in the domestic component of money supply was caused by decreases in both domestic credit (-Afl. 98.1 million) and non-credit related balance sheet items (-Afl. 10.8 million). The drop in domestic credit was attributed to lower net claims of the banking sector on the public sector (-Afl. 99.6 million). In contrast, the claims of the banking sector on the private sector rose by Afl. 1.5 million. The lower net claims of the banking sector on the public sector was caused by an increase in government deposits (+Afl. 99.6 million). The growth in the claims of the banking sector on the private sector (see Chart 2: Credit components) was the result of a rise in loans to enterprises (+Afl. 2.0 million), housing mortgages (+Afl. 5.9 million), and a decrease in consumer credit (-Afl. 6.4 million).

## Inflation

The consumer price index (CPI) for August 2020 noted a 2.5 percent decrease year-over-year (YOY) compared to compared to a 3.2 percent decrease (YOY) for July 2020 (Chart 3).

Source: Centrale Bureau of Statistics

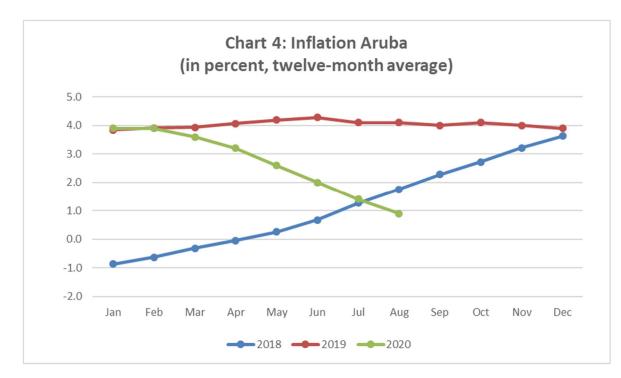

The main contributors to this decrease were the "Transport", "Housing", "Food and Non-Alcoholic Beverages", and "Recreation and Culture" components. In addition, the "Clothing and Footwear" and "Miscellaneous Goods and Services" components also noted decreases. In contrast, the "Restaurants and Hotels" component noted an increase. All other components remained unchanged. Furthermore, by excluding the effect of food and energy<sup>2</sup>, the core CPI decreased by 0.6 percent (YOY) (Table 2).

<sup>&</sup>lt;sup>2</sup> Partly affects the housing and transport components.

The 12-month average inflation rate was 0.9 percent in August 2020, compared to 1.4 percent in July 2020 (Chart 4).

Source: Centrale Bureau of Statistics

## Government

Total government revenue amounted to Afl. 65.6 million in August 2020, Afl. 30.5 million less than the same month of the previous year.

The decline in government revenue resulted from a decrease in tax revenue (-Afl. 32.2 million) and an increase in non-tax revenue (+Afl. 1.6 million).

The reduction in tax revenue was mainly driven by decreases in income from wage tax (-Afl. 9.8 million), turnover tax (-Afl. 7.0 million), import duties (-Afl. 5.5 million), and profit tax (-Afl. 2.8 million). In contrast, income from land tax (+Afl. 2.1 million) increased.

## Tourism

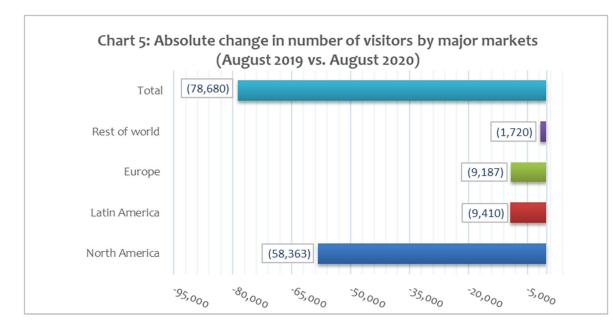

The number of stay over visitors amounted to 17,420 in August 2020, which is 78,680 less visitors (-81.9 percent) than in August 2019.

This decline was due to a reduction in all the markets. The North American market, the Latin American market, and the European market decreased by of 58,363 visitors (-79.0 percent), 9,410 visitors (-99.7 percent), and 9,187 visitors (-86.9 percent), respectively.

The reduction in the North American market resulted primarily from less arrivals from the United States (-55,648 visitors or -78.4 percent). The decrease in the arrivals from the Latin American market was primarily due to less arrivals from Colombia.

In the month under review, total number of nights spent in Aruba, as indicated by the visitors, fell by 80.2 percent to 135,990 compared to the same month of the previous year. The average intended night stays increased from 7.2 nights in August 2019 to 7.8 nights in August 2020.

Please note that no cruise visitors were welcomed during the month under review.

B) Quasi-money	1,916.1	1,818.3	1,944.3	1,994.6	1,904.5	1,906.6	1,965.1	2,015.2	2,007.7	2,076.

\* The monetary survey consolidates the accounts of the Centrale Bank van Aruba, the commercial banks and the Government related only to the issuance of components of the money supply, i.e., coins and treasury bills. This survey shows the financial relationship between the monetary sector, whose liabilities include the money supply, and other sectors of the economy.

\*\* Gross claims include loans granted as well as government bonds in the hands of the monetary sectors and claims resulting from the issuance of treasury bills, cash certificates, and coins.

\*\*\* Revaluation differences of gold and official foreign exchange holdings are excluded in order to approximate the net import of foreign funds by the nonmonetary sectors.

1) The Diversification Index measures the concentration within the tourist market, and thus demonstrates the degree of diversification by tourist origin countries. The higher the index, the higher the level of concentration, meaning less diversification. For further reference on the methodology (which is an application of a Herfindahl-Hirschman index) see the Quarterly Bulletin (2011-I) of the CBA.
