I. Main economic indicators

Monetary developments

In June 2020, money supply increased by Afl. 25.9 million to Afl. 4,761.5 million, compared to May 2020, resulting from an expansion in the net foreign¹ assets (+Afl. 138.3 million) and a decrease in the net domestic assets (-Afl. 112.4 million) (Chart 1).

Source: Centrale Bank van Aruba

¹ Excluding revaluation differences of gold and foreign exchange holdings.

Money, as a component of broad money, grew by Afl. 21.9 million to Afl. 2,746.2 million, due to increases in both demand deposits (+Afl. 15.1 million) and in money in circulation (+Afl. 6.7 million). The rise in demand deposits resulted from an expansion in the deposits denominated in Aruban florin (+Afl. 46.0 million) and a decline in deposits denominated in foreign currency (-Afl. 30.9 million). Quasi-money rose by Afl. 4.1 million to Afl. 2,015.2 million, due to an increase in time deposits denominated in Aruban florin (+Afl. 15.1 million) and a decrease in savings deposits denominated in Aruban florin (-Afl. 10.6 million).

In June 2020, net foreign assets of the banking sector expanded due to net purchases of foreign exchange of Afl. 313.4 million from the public, mostly related to other investment and net transfer from foreign accounts. These were largely offset by net sales of foreign exchange of Afl. 175.1 million to the public, mainly associated with payments for goods imports, portfolio investment, and other services (Table 1).

Table 1. Change in Net Foreign Assets (NFA) June 2020	
(in Afl. million)	
Net purchases of foreign exchange	313.4
Other investment	283.8
Net transfers from foreign accounts	19.6

Portfolio investment	-23.0
Items not yet classified	-9.5
Primary Income	-6.9
Secondary Income	-3.2
Financial derivatives	-3.1
NET CHANGE IN NFA (minus (-) denotes a decrease)	138.3

Source: Centrale Bank van Aruba

The decline in the domestic component of money supply was due to decreases in both domestic credit (-Afl. 101.0 million) and in the non-credit related balance sheet items (-Afl. 11.4 million). The decline in domestic credit was attributed to lower net claims of the banking sector on the public sector (-Afl. 117.8 million) and an increase in claims of the banking sector on the private sector (+Afl. 16.8 million). The lower net claims of the banking sector on the public sector was caused by a decrease in gross claims (-Afl. 66.8 million) and an increase in government deposits (+Afl. 51.0 million). The growth in the claims of the banking sector on the private sector (see Chart 2: Credit components) was the result of a rise in housing mortgages (+Afl. 8.3 million), consumer credit (+Afl. 6.9 million), and loans to enterprises (+Afl. 1.6 million).

Inflation

The consumer price index (CPI) for June 2020 noted a 0.3 percent decrease year-over-year (YOY) compared to a 0.8 percent increase (YOY) for May 2020 (Chart 3).

Source: Centrale Bureau of Statistics

The main contributors to this decrease were the "Transport", "Housing", and "Household Operation" components. In addition, the "Food and Non-Alcoholic Beverages" component also noted a decrease, while the "Recreation and Culture", "Clothing and Footwear", "Health", and "Restaurants and Hotels" components noted increases. The other components remained unchanged. Furthermore, by excluding the effect of food and energy², the core CPI also grew by 1.9 percent (YOY) (Table 2).

Source: Centrale Bureau of Statistics

² Partly affects the housing and transport components.

The 12-month average inflation rate was 3.6 percent in June 2020, compared to 4.1 percent in May 2020 (Chart 4).

Source: Centrale Bureau of Statistics

Government

Total government revenue amounted to Afl. 72.6 million in June 2020, Afl. 43.1 million less than the same month of the previous year.

The decline in government revenue resulted from decreases in tax revenue (-Afl. 42.8 million) and in non-tax revenue (-Afl. 0.4 million).

The reduction in tax revenue was mainly driven by decreases in income from turnover tax (-Afl. 9.0 million), profit tax (-Afl. 7.3 million), import duties (-Afl. 6.8 million), wage tax (-Afl. 4.9 million), land tax (-Afl. 3.9 million), and foreign exchange tax (-Afl. 3.8 million).

Tourism

Please note that due to the closure of borders because of the COVID-19 pandemic, no tourists were welcomed during the month under review.

^{*} The monetary survey consolidates the accounts of the Centrale Bank van Aruba, the commercial banks and the Government related only to the issuance of components of the money supply, i.e., coins and treasury bills. This survey shows the financial relationship between the monetary sector, whose liabilities include the money supply, and other sectors of the economy.

^{**} Gross claims include loans granted as well as government bonds in the hands of the monetary sectors and claims resulting from the issuance of treasury bills, cash certificates, and coins.

^{***} Revaluation differences of gold and official foreign exchange holdings are excluded in order to approximate the net import of foreign funds by the nonmonetary sectors.

¹⁾ The Diversification Index measures the concentration within the tourist market, and thus demonstrates the degree of diversification by tourist origin countries. The higher the index, the higher the level of concentration, meaning less diversification. For further reference on the methodology (which is an application of a Herfindahl-Hirschman index) see the Quarterly Bulletin (2011-I) of the CBA.
