- 12. Consumer price index 21

I. Main economic indicators

Monetary developments

In April 2020, money supply decreased by Afl. 28.5 million to Afl. 4,672.1 million, compared to March 2020, resulting from a decline in the net foreign¹ assets (-Afl. 49.0 million) and an increase in the net domestic assets (+Afl. 20.5 million) (Chart 1).

Source: Centrale Bank van Aruba

¹ Excluding revaluation differences of gold and foreign exchange holdings.

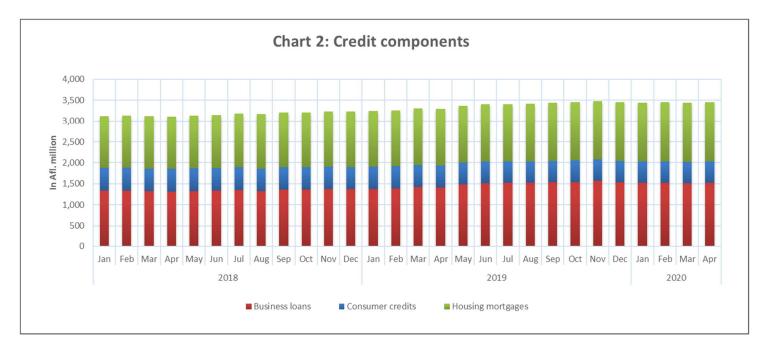

Money, as a component of broad money, declined by Afl. 14.7 million to Afl. 2,656.3 million, resulting from a decrease in demand deposits (-Afl. 25.8 million) and an increase in money in circulation (+Afl. 11.2 million). The reduction in demand deposits stemmed from a decrease in the deposits denominated in foreign currency (-Afl. 49.6 million) and an increase in deposits denominated in Aruban florin (+Afl. 23.8 million). Quasi-money decreased by Afl. 13.9 million to Afl. 2,015.8 million, due to a decline in time deposits denominated in Aruban florin (-Afl. 43.0 million) and an increase in savings deposits denominated in Aruban florin (+Afl. 28.3 million).

In April 2020, net foreign assets of the banking sector decreased due to net sales of foreign exchange of Afl. 131.1 million to the public, mostly related to payments for goods imports and other services. These were largely offset by net purchases of foreign exchange of Afl. 82.2 million from the public, mainly associated with other investment and net transfer from foreign accounts (Table 1).

Table 1. Change in Net Foreign Assets (NFA) April 20	20
(in Afl. million)	
Net purchases of foreign exchange	82.2
Tourism services	7.4
Other investment	34.2
Net transfers from foreign accounts	26.5
Transportation services	7.0
Primary Income	4.1
Government services	1.5
Direct investment	0.8
Capital account transactions	0.6
Net sales of foreign exchange	-131.1
Goods	-88.2
Other services	-31.9
Financial derivatives	-2.7
Items not yet classified	-6.8
Secondary Income	-1.2
Portofolio investment	-0.3
NET CHANGE IN NFA (minus (-) denotes a decrease)	-49.0

Source: Centrale Bank van Aruba

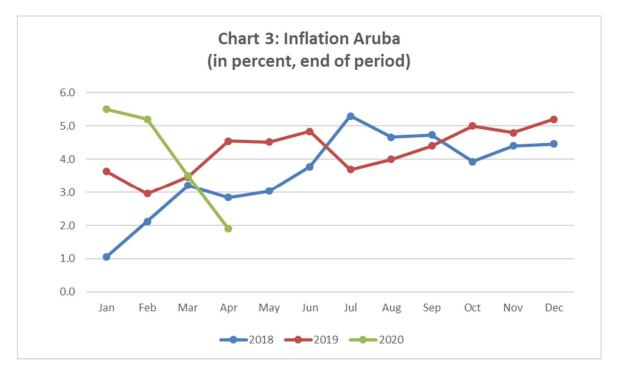

The growth in the domestic component of money supply was caused by an increase in domestic credit (+Afl. 27.0 million) and a decrease in the non-credit related balance sheet items (-Afl. 6.6 million). The rise in domestic credit was attributed to an expansion in both the net claims of the banking sector on the public sector (+Afl. 14.9 million) and in the claims of the banking sector on the private sector (+Afl. 12.1 million). The increase in the net claims of the banking sector on the public sector was caused by increases in gross claims (+Afl. 25.0 million) and in government deposits (+Afl. 10.1 million). The growth in the claims of the banking sector on the private sector (see Chart 2: Credit components) was the result of a rise in loans to enterprises (+Afl. 9.3 million), housing mortgages (+Afl. 4.2 million), and a decrease in consumer credit (-Afl. 1.3 million).

Inflation

The consumer price index (CPI) for April 2020 noted a 1.9 percent increase year-over-year (YOY) compared to a 3.5 percent increase (YOY) for March 2020 (Chart 3).

Source: Centrale Bureau of Statistics

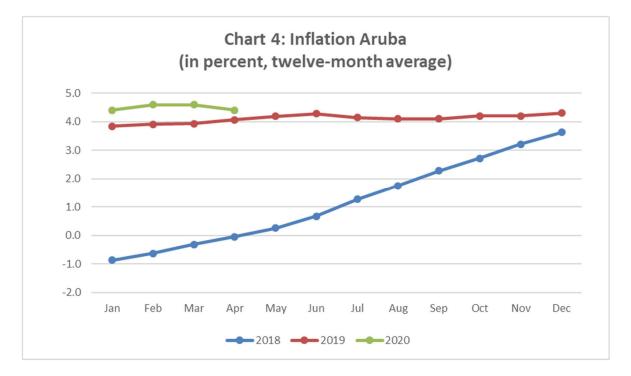

The main contributors to this increase were the "Recreation and Culture" and "Food and Non-Alcoholic Beverages" components. The "Household Operation" and "Restaurants and Hotels" components also noted increases, while the "Transport" and "Housing" components noted decreases. All other components remained unchanged. Furthermore, by excluding the effect of food and energy², the core CPI also grew by 2.9 percent (YOY) (Table 2).

Table 2: COMPONENTS OF	INFLATIO	N		
			12-month	average

Source: Centrale Bureau of Statistics

² Partly affects the housing and transport components.

The 12-month average inflation rate was 4.4 percent in April 2020, compared to 4.6 percent in March 2020 (Chart 4).

Source: Centrale Bureau of Statistics

Government

Total government revenue amounted to Afl. 61.4 million in April 2020, Afl. 34.5 million less than the same month of the previous year.

The decline in government revenue resulted from decreases in tax revenue (-Afl. 29.6 million) and in non-tax revenue (-Afl. 4.9 million).

The reduction in tax revenue was mainly driven by decreases in income from turnover tax (-Afl. 7.8 million), import duties (-Afl. 6.3 million), and income tax (-Afl. 4.5 million.

Tourism

Please note that due to the closure of borders because of the COVID-19 pandemic, no tourists were welcomed during the month under review.

* The monetary survey consolidates the accounts of the Centrale Bank van Aruba, the commercial banks and the Government related only to the issuance of components of the money supply, i.e., coins and treasury bills. This survey shows the financial relationship between the monetary sector, whose liabilities include the money supply, and other sectors of the economy.

** Gross claims include loans granted as well as government bonds in the hands of the monetary sectors and claims resulting from the issuance of treasury bills, cash certificates, and coins.

*** Revaluation differences of gold and official foreign exchange holdings are excluded in order to approximate the net import of foreign funds by the nonmonetary sectors.

1) The Diversification Index measures the concentration within the tourist market, and thus demonstrates the degree of diversification by tourist origin countries. The higher the index, the higher the level of concentration, meaning less diversification. For further reference on the methodology (which is an application of a Herfindahl-Hirschman index) see the Quarterly Bulletin (2011-I) of the CBA.
